FEB – GUIDE FOR AUTHORS

General

FEB accepts original papers, review articles, short communications, research abstracts from the entire sphere of environmental-chemistry,-biology,-microbiology,- technology, -biotechnology and-management, furthermore, about residue analysis/and ecotoxicology of contaminants.

Acceptance or no acceptance of a contribution will be decided, as in the case of other scientific journals, by a board of reviewers. Papers are processed with the understanding that they have not been published before (except in form of an abstract or as a part of a published lecture, review or thesis); that they are not under consideration for publication elsewhere; that their publication has been approved by all co-authors, if any, as well as tacitly or explicitly- by the responsible authorities at the institute where the work has been carried out and that, if accepted, it will not be published elsewhere in the same form, in either the same or another language, without the consent of the copyright holders.

Language

Papers must be written in English. Spelling may either follow American (Webster) or British (Oxford) usage but must be consistent. Authors who are less familiar with the English language should seek assistance from proficient colleagues in order to produce manuscripts that are grammatically and linguistically correct.

Size of manuscript

Review articles should not exceed 30 typewritten pages. In addition up to 5 figures may be included. Original papers must not exceed 14 typewritten pages. In addition up to 5 figures may be included. Short-Communications should be limited to 4 typewritten pages plus not more than 1 illustration. Short descriptions of the authors, presentation of their groups and their research activities (with photo) should together not exceed 1 typewritten page. Short research abstracts should report in a

few brief sentences (one-fourth to one page) particularly significant findings. Short articles by relative newcomers to the chemical innovation arena highlight the key elements of their Master and PhD-works in about 1 page.

Book Reviews are normally written in-house, but suggestions for books to review are welcome.

Preparation of manuscript

Dear authors,

FEB is available both as printed journal and as online journal on the web. You can now e-mail your manuscripts with an attached file. Save both time and money. To avoid any problems handling your text please follow the instructions given below:

When preparing your manuscripts have the formula K/SS (Keep It Simple and Stupid) in mind. Most word processing programs such as MS-Word offer a lot of features. Some of them can do serious harm to our layout. So please do not insert hyperlinks and/or automatic cross-references, tables of contents, references, footnotes, etc.

1. Please use the standard format features of your word processor (such as standard.dot for MS Word).
2. Please do not insert automatisms or secret link-ups between your text and your figures or tables. These features will drive our graphic department sometimes mad.
3. Please only use two fonts for text or tables "Times New Roman" and for graphical presentations "Arial".
4. Stylesheets, text, tables and graphics in shade of grey
5. Turn on the automatic language detection in English (American or British)
6. Please - check your files for viruses before you send them to us!!

**Manuscripts should send to: parlar@wzw.tum.de
or: parlar@prt-parlar.de**

Thank you very much!

STRUCTURE OF THE MANUSCRIPT

Title page: The first page of the manuscript should contain the following items in the sequence given: A concise title of the paper (no abbreviations). The names of all authors with at least one first name spelled out for every author. The names of Universities with Faculty, City and Country of all authors.

Abstracts: The second page of the manuscript should start with an abstract that summarizes briefly the contents of the paper (except short communications). Its length should not exceed 150-200 words. The abstract should be as informative as possible. An extended repetition of the paper's title is not considered to be an abstract.

Keywords: Below the Summary up to 6 key words have to be provided which will assist indexers in cross-indexing your article.

Introduction: This should define the problem and, if possible, the frame of existing knowledge. Please ensure that people not working in that particular field will be able to understand the intention. The word length of the introduction should be 150 to 300 words.

Materials and methods:

Please be as precise as possible to enable other scientists to repeat the work.

Results: Only material pertinent to the subject must be included. Data must not be repeated in figures and tables.

Acknowledgements: Acknowledgements of financial support, advice or other kind of assistance should be given at the end of the text under the heading "Acknowledgements". The names of funding organisations should be written in full.

References: Responsibility for the accuracy of references rests with the authors. References are to be limited in number to those absolutely necessary. References should appear in numerical order in brackets and in order of their citation in the text. They should be grouped at the end of the paper in numerical order of appearance. Abbreviated titles of periodicals are to be used according to Chemical or Biological Abstracts, but names of lesser known journals should be typed in full. References should be styled and punctuated according to the following examples:

ORIGINAL PAPERS:

1. Author, N.N. and Author, N.N. (Year) Full title of the article. Journal and Volume, first and last page.

BOOK OR PROCEEDING:

2. Author, N.N. and Author, N.N. (Year) Title of the contribution.

In: Title of the book or proceeding. Volume (Edition

of klitor-s, ed-s) Publisher, City, first and last page

DOCTORAL THESIS:

3. Author, N.N. (Year) Title of the thesis, University and Faculty, City

UNPUBLISHED WORK:

Papers that are unpublished but have been submitted to a journal may be cited with the journal's name followed by "in press". However, this practice is acceptable only if the author has at least received galley proofs of his paper. In all other cases reference must be made to "unpublished work" or "personal communication".

Discussion and Conclusion: This part should interpret the results in reference to the problem outlined in the introduction and of related observations by the author/s or others. Implications for further studies or application may be discussed. A conclusion should be added if results and discussion are combined.

Corresponding author: The name of the corresponding author with complete postal address

Precondition for publishing:

A minimum number of 25 reprints must be ordered and prepaid.

1 - 4 pp.: 200,- EURO + postage/handling

5 - 8 pp.: 250,- EURO + postage/ handling

More than 8pp: 1.50 EURO/page x number of reprints +postage/ handling.

The prices are based upon the number of pages in our journal layout (not on the page numbers of the submitted manuscript).

Postage/ Handling: The current freight rate is Germany 10 €, Europe 18,00 €, International 30 €.

VAT: In certain circumstances (if no VAT registration number exists) we may be obliged to charge 7% VAT on sales to other EU member countries. MESAEP and SECOTOX members get a further discount of 20% (postage/ handling full).
