

## **Aim and Goals**

### **Aim:**

This strategical plan is prepared to increase the quality of education for Canakkale Onsekiz Mart University, Canakkale Ceramics Research Development and Application Center and to identify strategies, to keep up with changes we face in today's information age, and goals based on these strategies. The aim of this document, which we target to create a roadmap that can help us to catch tomorrow's sustainable competition conditions up today, is to contribute internalizing quality and modern educational approach by our center's employees, our university to be scientific, entrepreneurial and innovative in line with its institutional vision, institutional culture and developing correlation between partners.

### **Goal:**

The strategies and goals presented in this document involves the institutional mission, vision, strategical aims and goals of Canakkale Ceramics Research Development and Application Center in line with strategical goals of Canakkale Onsekiz Mart University. This document is prepared with the fully participation and suggestions of administrative and academical personnel to the extent possible. Beside our academical personnel, our administrative personnel participate to the meetings as well. This is expected to allow employees of the institution to internalize this document and fully participate to the quality processes. In the light of shared information our institutions' current and future policies are discussed and aimed to realize these policies in the scope of strategical plan.
