

COMU FACULTY OF SPORTS SCIENCES QUALITY ASSURANCE POLICY

To contribute to our university's quality education and training activities

- By ensuring the development of our university's relations with its stakeholders, to measure the degree of satisfaction of internal and external stakeholders due to the services and activities of our university, to identify their complaints, if any, and to take the necessary measures for corrections.
- To dominate and realize the understanding of continuous improvement in units and individuals
- Establishing suggestion systems to increase the level of service and education and receiving and evaluating the suggestions of the stakeholders,
- To contribute to the institutionalization of our university as a unit, to contribute to the development of our university's corporate culture
- To contribute to our university being a scientific, entrepreneurial and innovative university
- To contribute to our university's achievement of the qualifications that third generation universities should have by contributing academically to the realization of interdisciplinary studies of our university.

To contribute academically to make our university one of the Research Universities of the Higher Education Institution.
