# RECTOR'S MESSAGE

## Message from our Rector Prof. Dr. R. Cüneyt ERENOĞLU

Çanakkale Onsekiz Mart University (ÇOMÜ), located in one of Turkey's most strategic cities with its history, culture and geography, has come a long way in its journey to become a leading university in its region for more than 30 years. While achieving remarkable successes in the fields of education, research, sports and arts, our university, with its accumulated knowledge and experience, strong academic and administrative staff, carries out works that contribute to society on a national and international scale and create significant added value. In this journey, ÇOMU aims to focus on the environmental, economic and social principles of sustainability in all decision-making processes, institutional practices and activities with its contemporary, sustainable and inclusive education approach and to expand practices in this direction.

In line with its mission and goals, our university established the Sustainability Office Coordinator in December 2023 to contribute to the goal of leaving a more livable world to future generations. As a priority goal, it aims to raise awareness of our students and staff on sustainability; to analyze the current situation by collecting data; to coordinate studies focused on education, research and social contribution, to work for the adoption of sustainability by all stakeholders and units of the university, and to focus on sustainable development goals.

As a primary goal, the Coordinatorship has adopted to raise awareness of our students and staff on sustainability; to analyze the current situation by collecting data; to coordinate studies focused on education, research and social contribution, to work for the adoption of sustainability by all stakeholders and units of the university, and to develop innovative solutions with an approach focused on sustainable development goals. Thus, the Coordinatorship, which aims to contribute to the society, has carried out activities that will reveal the current situation of our university in this focus and draw the road map for the future. As an example of these activities, this report, prepared under the coordination of the Sustainability Office Coordinatorship, is a document of our university's motivation to protect the welfare of future generations with the measures it takes to ensure sustainability in both education and research activities and campus life, and the plans it makes for the future.

On this path that we set out to contribute to the goal of leaving a more livable world to future generations, I am honored to present the Çanakkale Onsekiz Mart University 2023 Sustainability Report, which exhibits

its strong determination to become a university that is more integrated with the city, strengthened Public-Industry-NGO cooperation, sensitive to problems and solution-oriented, nationally and internationally recognized and pioneering, and I wish it to be beneficial to all our stakeholders.

Forward Together...

# MESSAGE FROM SUSTAINABILITY OFFICE COORDINATORSHIP

Dear Stakeholders

While the problems facing our world are increasing day by day, it is our common responsibility to work to ensure environmental, social and economic sustainability and to increase the number and quality of the work carried out in this direction. Sustainability is not just a goal, but a process of continuous transformation and development. It is important to determine our current situation and areas open to improvement in education, research and social responsibility activities carried out in the fields of social rights, economic developments, energy efficiency, waste management, water use, transportation, biodiversity, etc., and to monitor progress in these areas every year.

As Çanakkale Onsekiz Mart University Sustainability Office Coordinatorship, we are proud to share with you the Sustainability Report we have prepared for 2023 and our work in line with the Sustainable Development Goals. This report, prepared for the first time at our university, will help us to identify our current situation, identify our areas open to improvement and plan for the work to be done in these areas. The Sustainability Report, prepared for the first time this year for the year 2023, will be prepared and published every year from now on.

This report provides a transparent summary of our steps towards achieving our sustainability goals and sets out our vision for the future. At the same time, with this report, we invite our stakeholders to support our sustainability efforts to produce innovative and environmentally friendly projects that set an example for society.

We would like to thank everyone who has contributed to the sustainability journey of our university and hope to continue working together to leave a better world for future generations by contributing to the protection of our planet, increasing social welfare, economic, social and environmental sustainability.

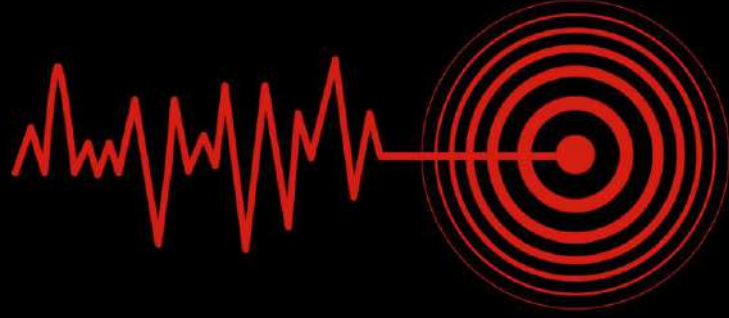

Sincerely,

Sustainability Office Coordinatorship

SUSTAINABILITY REPORT  
2023**

## 01. MISSION, VISION AND CORE VALUES

- Our Mission: To raise competent individuals with a contemporary, sustainable and inclusive education approach; to contribute to society at national and international level with the scientific knowledge and technologies it produces and the cultural, sports and artistic activities it carries out.
- Our Vision: To be a leading university in the fields of science, technology, arts, sports and culture that contributes to the quality of life of the society with the innovative and entrepreneurial individuals it raises.
- Our Core Values: Çanakkale Onsekiz Mart University (Figure 1) is on its way to becoming a university with high values with all the gains it has achieved since its establishment in its valuable geography.

### These Values:

- Justice and Merit
- Academic Competence
- Organizational Belonging and Participation
- Sensitivity to Society and Nature
- Commitment to Ethical Values
- Respect for People and Differences
- Entrepreneurship, Innovation and Creativity
- Accessibility, Transparency and Accountability
- Quality Oriented Corporate Culture
- Commitment to National and Spiritual Values
- Inclusive Education Approach

Figure 1. Çanakkale Onsekiz Mart University

## Aims and Objectives of Our University

### A1 Creating Added Value at National and International Level through Qualified R&D and P&D Activities

- H 1.1 Increasing Research and Development and Product Development Capacity
- H 1.2 Increasing Value-Added Research Outputs
- H 1.3 Encouraging and Disseminating Entrepreneurship Activities
- H 1.4 Increasing Joint Research and Product Development Projects within the Scope of University-Industry Collaborations
- H 1.5 Supporting Student Entrepreneurship and Innovation Programs

### A2 Increasing the Quality of Education and Training Activities Sustainably

- H 2.1 Increasing the Quality of Education and Training Activities
- H 2.2 Increasing Activities that Develop Students' Competencies
- H 2.3 To Strengthen the Competencies of Academic Staff.
- H 2.4 Strengthening Education and Training Infrastructure

### A3 Increasing the University's Activities for the Benefit of Society and the Environment

- H 3.1 Increasing Social Contribution Activities

H 3.2 Strengthening Public Services Provided by the University

H 3.3 To increase the effectiveness of environmentally friendly university activities

**A4 Increasing the International Recognition of our University**

H 4.1 Increasing International Student, Academic and Administrative Staff Mobility

H.4.2 Increasing Activities to Enhance International Recognition

**A5 Strengthening Quality Culture and Institutional Resources**

H 5.1 Improving Internal Satisfaction and Corporate Belonging

H 5.2 Strengthening and Maintaining Communication with Stakeholders

H 5.3 Strengthen Institutional Data Management and Digital Development Processes

H 5.4 Strengthening Institutional Resources

## 02. METHODOLOGY

Çanakkale Onsekiz Mart University Sustainability Report has been prepared with reference to Global Reporting Initiative (GRI) standards to ensure global comparability. In addition, it presents ÇOMU's significant economic, social and environmental impacts and contributions in line with the UN SDGs.

The data obtained from academic staff through the Sustainable Development Goals (SDG) Activity/Event Entry Form published on the website of [Çanakkale Onsekiz Mart University Sustainability Coordination Office](#) were used in the report. In addition, information was requested from the administrative and academic units of the university through the [University Information Management System \(UIMS\)](#), and this information and data were also used in the report. News and event announcements published on the Çanakkale Onsekiz Mart University website were also utilized in the reporting process. In our University, which uses the [Academic Data Management System \(AVESIS\)](#), it is possible to monitor activities such as publications, theses, projects, courses, participation in congresses and symposiums, organizations, awards, editorships, art activities, research groups, visual activities carried out by our university researchers within the relevant scope with the United Nations (UN) SDG symbols on a yearly basis. However, it was not possible to obtain complete data from academic staff either through the activity entry form or the AVESIS system. Therefore, additional internet sources were scanned. As much as possible, the report includes all activities related to sustainability and the UN SDGs. As of next semester, Çanakkale Onsekiz Mart University is committed to publishing a sustainability report every year; therefore, this report will serve as a guide for future reports by presenting the current situation.

### 02.1. Basic Documents

Çanakkale Onsekiz Mart University's [2024 - 2028 Strategic Action Plan](#), [2023 Annual Plan](#), [ÇOMÜ Climate Action Plan](#), [Gender Equality Plan](#), [Quality Assurance Policy](#), [Management System Policy](#), [Education Policy](#), [Research Policy](#), [Social Contribution Policy](#), [Internationalization Policy](#), [Sustainability Policy](#) constitute the main documents of this report.

### 02.2. Scope of Reporting

All the information and data in this report have been obtained from the administrative and academic units of the university located in Çanakkale center and 9 districts. In the report, activities such as projects, events, conferences, workshops, collaborations, awards, etc. include data between 01.01.2023-31.12.2023. However, institutional information includes information and developments up to the date of writing the report.

#### Report Communication

Please send your comments, suggestions and feedback on the report to [sustainability@comu.edu.tr](mailto:sustainability@comu.edu.tr)

#### Publication Date and Frequency

October 2024 (Sustainability Report for 2023) - To be published annually.

### 03. ÇANAKKALE ONSEKİZ MART UNIVERSITY IN NUMBERS

General information, facilities, and views about Çanakkale Onsekiz Mart University are provided (Figures 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13). Our university is one of the distinguished universities of our growing and developing country, in collaboration with the city of Çanakkale, alongside a strong academic and administrative staff. Recently, our university has transformed into a model that contributes to both science and society, following developments in the international arena. The topics mentioned in this report have been created as a result of the evaluation, analysis, and conversion of data officially obtained from the academic and administrative units of our university by the Sustainability Office of Çanakkale Onsekiz Mart University.

## 04.MANAGEMENT

Çanakkale Onsekiz Mart University, established in the 1992-1993 academic year, has a total of 37 educational units as of 2023, including a Graduate School, 21 faculties, 3 schools, and 13 vocational schools. At the same time, there are 37 research and application centers. Çanakkale Onsekiz Mart University offers a total of 443 programs, including 104 undergraduate programs, 97 associate degree programs, 133 thesis master's programs, 27 non-thesis master's programs, 13 distance learning non-thesis master's programs, 66 doctoral programs, and 3 proficiency in art programs.

The language of education at our university is Turkish. There are also programs in German, Japanese and English within the university. Our university has bilateral agreements with 106 universities from 39 different countries. In addition, as of May 2024, Çanakkale Onsekiz Mart University became a member of the European Network of Social Authorities (ENSA)

### 04.1. Management Structure

The top management of the University consists of the Rector, the University Board of Directors and the University Senate. The University Board of Directors consists of the Rector, Vice Rectors, Deans and three elected members and the University Senate consists of the Rector, Vice Rectors, Deans, representatives elected by the Faculty Management and the Director of the Institute. Detailed information on the decision-making and operational actions of the Senior Management can be obtained from the [legislation of the Council of Higher Education \(YÖK\)](#).

All activities of our university are carried out in accordance with the Civil Servants Law No. 657, the Budget Law of the relevant year, the Public Procurement Law No. 4734, the Public Financial Management and Control Law No. 5018 and the relevant regulations and directives issued based on the authority granted by them. The list of laws and regulations regarding the functioning of universities is available on the [website of the Council of Higher Education](#). In addition, the regulations and directives of our university can be accessed from the [website of our University](#).

In accordance with the aim of designing, developing and monitoring these processes in accordance with the determined work schedule with a focus on continuous improvement of all academic or administrative actions carried out at the University, the [Quality Development and Institutional Monitoring Coordinatorship](#) carries out its activities under the Rectorate in order to contribute to the Quality Assurance Commission of our University, to ensure that the internal quality assurance, program accreditation and institutional accreditation studies of our University are carried out, to carry out all field studies and correspondence in this direction, to organize the necessary meetings, training and internal audit activities.

In its 30th year, our university was deemed worthy of receiving [Institutional Accreditation](#) based on the decision taken at the Higher Education Quality Board meeting on April 27, 2022.

### 04.2. Sustainability Management

Established at Çanakkale Onsekiz Mart University in 2023, the [Sustainability Office Coordinatorship](#) aims to promote sustainability among all university stakeholders and units and to develop innovative solutions that focus on sustainable development goals. In line with the mission of Çanakkale Onsekiz Mart University to be a pioneering university contributing to science, technology, arts, sports and culture, the [Sustainability Office Coordinatorship](#) guides the creation and implementation of policies and strategies in accordance

with sustainability principles in all university units. The Coordinatorship Commission consists of faculty members from different disciplines such as Urban Regional Planning, Public Health, Environmental Engineering, Computer Engineering, Landscape Architecture, Public Administration, Geography, Biology, Business Management, Food Processing and Foreign Trade departments. The Sustainability Office Coordinatorship organizes [Sustainability Workshops](#) to create a culture of sustainability on campus.

Çanakkale Onsekiz Mart University's [Sustainability Policy](#) promotes sustainability practices while integrating environmental, economic and social principles into decision-making processes and institutional activities. It is a fundamental principle to ensure the continuity of awareness of the United Nations Sustainable Development Goals in education, research and development, social contribution and administrative activities. The University's sustainability policy also includes strengthening University-Public-Public-Industry-NGO collaborations for sustainability practices, responsible resource use to reduce water and carbon footprint, energy efficiency, waste and water management, and conducting green campus studies. The Sustainability Office Coordinatorship coordinates these efforts and is responsible for developing policies and managing actions related to the 13th Sustainable Development Goal "Climate Action".

It is aimed to realize Green Transformation and Digital Transformation as twin transformations within our university. In this context, efforts are being made to expand digitization efforts at our university; in this direction, the [Digital Transformation Office Coordinatorship](#) was established within Çanakkale Onsekiz Mart University in order to reshape the business processes and ways of doing business with digital technologies in line with the impact of technological developments on the business world and society. The office continues its duties with Digital University, Artificial Intelligence, Big Data and Cyber Security Units. Digitalization efforts have been accelerated at our university. Çanakkale Onsekiz Mart University Digitalization R&D Unit produced a [highly accurate 3D model of Terzioğlu Campus](#). Within the scope of the work carried out, the 3D campus model, which forms the basis of planned campus information system, energy management, energy use efficiency, smart campus, green campus, green building and ecological sustainability projects in the long term, was made available to our internal and external stakeholders with a user-friendly interface on our university's website. Çanakkale Onsekiz Mart University uses MS Teams as a digital platform. Training, online meetings and lessons in extraordinary situations (earthquake, pandemic, etc.) are held through this platform. In addition, a [Green Transformation Coordinatorship](#) was established to realize green transformation on campus. The coordinatorship is responsible for the green transformation process of our university as well as the coordination of all activities that interact with industrial organizations and the city within the scope of green transformation.

### 04.3. Management of Outputs

Sustainability Office Coordinatorship was established in 2023. The Sustainability Office Coordinatorship collects and evaluates sustainability-related information from units and student clubs through its website. The Sustainability Office Coordinatorship Management classifies and evaluates this data and presents it to the senior management. The outputs obtained from the activities carried out by the Sustainability Office Coordinatorship are presented to the Quality Office, enabling the necessary improvements to be made.

Çanakkale Onsekiz Mart University aims to train qualified human resources who are productive, entrepreneurial, innovative, sensitive to the environment and social problems, and respectful to human rights. In this context, it has adopted the principle of developing student-oriented education, increasing the academic competence, quality and capacity to conduct effective research of the human resources it trains, increasing the level of satisfaction in education and training activities, continuously improving education programs, establishing a relationship between education programs and research activities, developing internationalization efforts by increasing bilateral cooperation agreements with our university and

universities abroad, increasing the number of international students, increasing the number of distance education programs and courses, and making education and training opportunities accessible to all students. Faculty members have to [define the role of courses in meeting the teaching objectives and program outcomes](#). In addition, the [Bologna Process Coordinatorship](#) carries out activities such as making updates to adapt to changing conditions in the national and international arena, monitoring and reporting the creation of success indicators in achieving the planned strategies and policies, developing course information forms and reflecting them in practice. A survey is conducted for each course at the end of the semester via ÜBYS. Programs review their educational objectives with [internal](#) and [external](#) stakeholders and make necessary improvements. For performance evaluation, a questionnaire is sent to graduates at certain periods after graduation to measure expected educational goals. AVESIS platform, which was developed in order to measure and evaluate performance and to create a sustainable quality assurance system, is used for performance evaluation in our institution. Student, academic and administrative staff and stakeholder satisfaction surveys are conducted and the feedback collected is evaluated and improvement efforts are made. The results of 2023 internal stakeholder satisfaction surveys are given in the table. Stakeholder satisfaction surveys and the [Campus 7/24](#) Wish, Suggestion and Improvement System are operated systematically and used effectively to improve processes (Table1).

Table 1. 2023 Internal Stakeholder Satisfaction Survey Results

Stakeholder	General Satisfaction (%)	Campus Life Satisfaction (%)
Student	80,2	77,9
Academic Staff	76,1	73,9
Administrative Staff	74,82	70,6

Alumni meetings are held to receive feedback from graduates. A [Career and Alumni Relations Coordinator](#) was established to better manage the process. An [alumni communication system](#) was also established.

**MEZUN İLETİŞİM SİSTEMİ.**

#### 04.4. Students in Management

The [Dean of Students' Office](#), which continues its activities in our university, was established in order to enable students to participate in administrative decisions and to communicate their demands and suggestions to senior management more easily. With the established [Student Senate](#), it is aimed to ensure the participation and contribution of students as internal stakeholders in education, training, quality and accreditation processes, to establish effective communication between the senior management of the university and the students, to convey the expectations, problems and requests of the students to the senior management, to help meet and develop the educational, health, sports and cultural needs of the students, to carry out studies to ensure student satisfaction, to convey the decisions taken on strategic issues concerning the whole university to the Dean of Students to be proposed to the University Executive Board and the Senate. With the [Çanakkale Onsekiz Mart University Quality Assurance Directive](#), a Student Quality Assurance Commission consisting of student representatives, student club representatives, foreign student representatives and disabled student representatives was established (Article 11). The Rectorate Quality Assurance Commission and the Internal Stakeholder Advisory Board, as well as the Unit Quality Assurance

Commissions of all academic units other than application and research centers, include at least one student representative member in order to ensure student participation in quality processes.

In accordance with the provisions of the directive, the student representative in the [Sustainability Office Coordination Commission](#) of our university takes part due to [their duty](#) as the President of the Sustainability Club.

Students' wishes and requests are communicated to the management through the Dean of Students' Office and Student Senates. In addition, thanks to the [Campus 7/24](#) system launched at our University, students can communicate their suggestions and improvement requests to the management. In addition, students have the [opportunity to create their own menus](#) with surveys that will be renewed every week in the cafeterias.

## 04.5. Reporting Concerns and Requests to Management

<https://destek.comu.edu.tr> address is used for Student Affairs and ÜBYS Technical Support requests. In this context, support is provided on information security, computer technical support, E-signature, e-mail, wireless network, licensed software, ÜBYS support, distance education, web pages and management. Thanks to the [Campus 24/7](#) system launched at our university, students, academic and administrative staff can convey their thanks, suggestions and improvement requests to the relevant unit. Requests are evaluated within the framework of Çanakkale Onsekiz Mart University Rectorate Quality Management System, answered by the relevant unit managers or responsible people, and the process is followed.

## 05. ECONOMIC IMPACT

The university's financial system is structured in accordance with [national legislation](#). The university's income and expenses are managed on the basis of items related to the Central Government Budget Law. Çanakkale Onsekiz Mart University's income and expense distributions are available in the [2023 financial tables](#) published online. As a state university, Çanakkale Onsekiz Mart University uses the budget responsibly. In addition, information on financial performance is provided in the reports on the [ÇOMÜ - Quality Coordination - Quality Assurance Commission page](#).

Our university makes the necessary expenses for the quality and program accreditation of its academic and administrative units. In 2023, the necessary service procurement was carried out to obtain the ISO 9001 Quality Management System, ISO 14001 Environmental Management System, ISO 45001 Occupational Health and Safety Management System, ISO 22000 Food Safety Management System certificates of Dardanos Campus Economic Enterprise and the ISO 9001 Quality Management System, ISO 10002 Customer Satisfaction Management System and ISO 21001 Educational Institutions Management System certificates of Çanakkale Onsekiz Mart University Health Culture and Sports Department. In addition, payments were made for academic program accreditation at our university. Çanakkale Onsekiz Mart University supports income-generating activities that are critical to increasing personnel income, especially through activities such as Technopolis, projects, consultancy services, etc.

The employees of Çanakkale Onsekiz Mart University, which is a State University, are public personnel and their salaries and annual salary increases are determined by the government. Çanakkale Onsekiz Mart University's employment practices are also accessible online. Information regarding contract personnel recruitment is provided via the website of our [University's Personnel Department](#). In accordance with Article 4/B of the Civil Servants Law No. 657, the preliminary evaluation list of applications made for the Contract Personnel recruitment announcement is announced on the website. As announced, the Preliminary Evaluation starts with the candidate who has the highest KPSS score. While the number of main candidates to be approved and the number of substitutes twice the number of quotas (ten times for Protection and Security Officers) are determined, the applications of those who do not meet the conditions at this stage are rejected. As a result of this process, the remaining applications are not evaluated. Candidates whose applications are rejected are given the opportunity to learn the reasons for rejection by logging into the <https://ilan.comu.edu.tr/> website with their own username and password. The candidate also has the right to object to the announced lists via their own e-mail address.

### 05.1. Responsible Purchasing

Recruitments at our university are made within the framework of the savings circular. Within the framework of the Climate Action Plan, our university plans to prioritize companies and service providers that prioritize local producers, prevent/reduce waste generation, and take sustainable and responsible purchasing principles into consideration.

### 05.2. Human Resources

According to 2023 data, the total number of academic staff at Çanakkale Onsekiz Mart University is 1987. When the distribution of academic staff by title is examined, it is seen that the university employs 356 professors, 304 associate professors, 494 faculty members, 428 lecturers, and 405 research assistants; There are a total of 2674 administrative staff, and approximately 55% of this staff is female and 45% is male.

Çanakkale Onsekiz Mart University (ÇOMÜ) ranks 2nd among 255 applications in the Erasmus academic staff teaching mobility budget. The applications submitted by higher education institutions and accredited national mobility consortia within the scope of Erasmus+ KA131 (Student and Staff Mobility in Higher Education) activity in the 2023 application period by the Turkish National Agency were evaluated by the Turkish National Agency and the results were announced. According to these results, our University stood out as the 2nd university that was entitled to the highest budget within the scope of Erasmus Teaching Mobility among 255 applications. In this context, our academic staff can participate in Erasmus Teaching Mobility by benefiting from 376 existing agreements with 175 universities in 30 different European countries. In addition, our University was entitled to the 42nd highest budget in Student Learning Mobility and won the highest grant right in all Erasmus categories within the Thrace Universities Union.

## 06. SOCIAL IMPACT

### 06.1. Peace and Justice

As a state university, Çanakkale Onsekiz Mart University accepts students based on the University Entrance Exam results. Postgraduate student admissions are also transparently carried out by the Graduate Education Institute. Therefore, there is no discrimination in student admissions. Our university observes the rule of law in all its activities and ensures transparency in decision-making processes. Adherence to ethical values, respect for people and differences, justice and merit, accessibility, transparency and accountability, inclusive education approach, and quality-oriented institutional culture are among our basic principles.

Academic freedom is secured through the Ethical Behavior Principles of the Council of Higher Education. In the Higher Education Law No. 2547, disciplinary and penal matters are specified in Article 53 and in Article 4.h, “Discrimination based on language, race, color, gender, political thought, philosophical belief, religion and sect in the performance of duty, and acting in a manner that targets the benefit or harm of individuals by acting contrary to the requirements of duty” are regulated as practices that require punishment. For administrative personnel disciplinary procedures, the “[Disciplinary Affairs Bureau](#)” is responsible for ensuring that the disciplinary procedures of administrative personnel are carried out and followed up in accordance with the relevant legislation. Disciplinary processes are carried out meticulously. With the 24/7 system implemented in our university, academic and administrative personnel can convey all kinds of wishes, suggestions and comments regarding improvements to the management.

As a state university, Çanakkale Onsekiz Mart University complies with all laws of the Republic of Turkey. In this context, it complies with all relevant laws such as the Occupational Health and Safety Law No. 6331, the Labor Law No. 4857, the Law on the Protection of Personal Data No. 6698, the Law on the Trial of Civil Servants and Other Public Officials No. 4483, the Law on Higher Education No. 2547, and the Law on the Right to Information No. 4982. The Çanakkale Onsekiz Mart University <https://mevzuat.comu.edu.tr/> address contains documents such as laws, regulations, directives, policies, procedures and principles. In line with the Constitution and laws, it is mandatory to implement practices that eliminate everything related to forced labor, modern slavery, human trafficking and child labor, and to recognize worker rights that provide job security befitting human dignity. The salaries of all academic and administrative staff are determined and fixed in line with state policies. Our university publishes employment practices, conditions and the functioning of the university on its website. Compliance with laws and regulations is carried out in accordance with the Principles of Turkish Higher Education Institutions. In addition, Çanakkale Onsekiz Mart University's personnel procedures and Gender Equality Plan are also accessible online. Staff have the right to become members of a union, and the [number of unions and member information at our university are included](#). In this way, staff have the opportunity to convey their problems to the management and make their voices heard.

Çanakkale Onsekiz Mart University organizes various in-service trainings in order to support the development of academic and administrative staff, inform them about their rights and responsibilities, and provide information about the steps to be taken in the face of problems. [In-service training](#) provided in 2023 are given in the table below. It also directs staff to receive training through the [Human Resources Office of the Presidency of the Republic of Turkey Distance Education Portal](#). These trainings include Disciplinary Investigation Training, KVKK Training, Law No. 3071 on the Use of the Right to Petition, Law No. 4982 on Information, Law No. 657 on Civil Servants, Risk Assessment Training, Gender Equality in the Workplace

Based on Human Rights, Mobbing (Psychological Violence in the Workplace), Artificial Intelligence Training in Working Life, Public Ethics and Principles of Ethical Behavior for Public Officials.

## 06.2. Equality

Çanakkale Onsekiz Mart University carries out various studies for all students, academic and administrative staff in order to increase social performance and ensure equality.

Processes aimed at developing the competencies of academic staff are systematically planned, implemented, monitored and developed at our university. Educational activities aimed at developing the competencies of academic staff are carried out through in-service trainings held within the Continuous Education Center (SEM), In-Service Training Branch Directorate of the Human Resources Department, Distance Education Application and Research Center (ÇOMUZEM), Scientific Research Application and Research Center (ÇOBİLTUM) and academic units.

Çanakkale Onsekiz Mart University organizes [promotion and title change exams](#) in order to support the career development of administrative staff, increase the competencies of staff and provide equal opportunities. The university provides institutional quality assurance by organizing [internal stakeholder meetings and in-service training programs](#) for staff. These programs support the professional development of staff and aim to create a working environment based on the principle of equality. In-Service Trainings are organized by the In-Service Training Branch Directorate of the Personnel Department within the scope of the “In-Service Training Procedure” and In-Service Training Directive. Within this scope, 30 in-service training activities were carried out by the In-Service Training Branch Directorate and 65 in-service training activities were carried out by the units in 2023. In order to evaluate the in-service trainings, the Unit Manager Evaluation Survey and the Participant Evaluation Survey were developed by the Quality Assurance Commission Measurement and Evaluation Advisory Board in cooperation with the relevant branch directorate and started to be implemented as of November 2023. When the results of the 2023 Administrative Personnel Satisfaction Survey on in-service training are examined, it is determined that the highest score and satisfaction level from the “provided self-development/in-service training-orientation opportunities” is 81.6%.

### 06.2.1. Equality and Accessibility for Students

Çanakkale Onsekiz Mart University provides support through the [International Student Office](#) to inform international students about issues such as equivalence and residence permit in application and registration procedures.

Çanakkale Onsekiz Mart University organizes social and cultural activities through various student clubs and societies. Çanakkale Onsekiz Mart University has [76 student clubs](#) that encourage social learning and self-learning and have a wide range of social and scientific activities. These clubs encourage active participation of students according to their interests and strengthen social solidarity. For example, many clubs such as social responsibility club and sustainability club contribute to the development of social skills of students.

Social Transcript is an official record of a student's extracurricular activities such as clubs, societies, volunteering and leadership roles at the university. With the [Social Transcript](#), it is a document that shows employers not only the academic skills of a student but also the social and personal skills during their university education (Figure 14)..

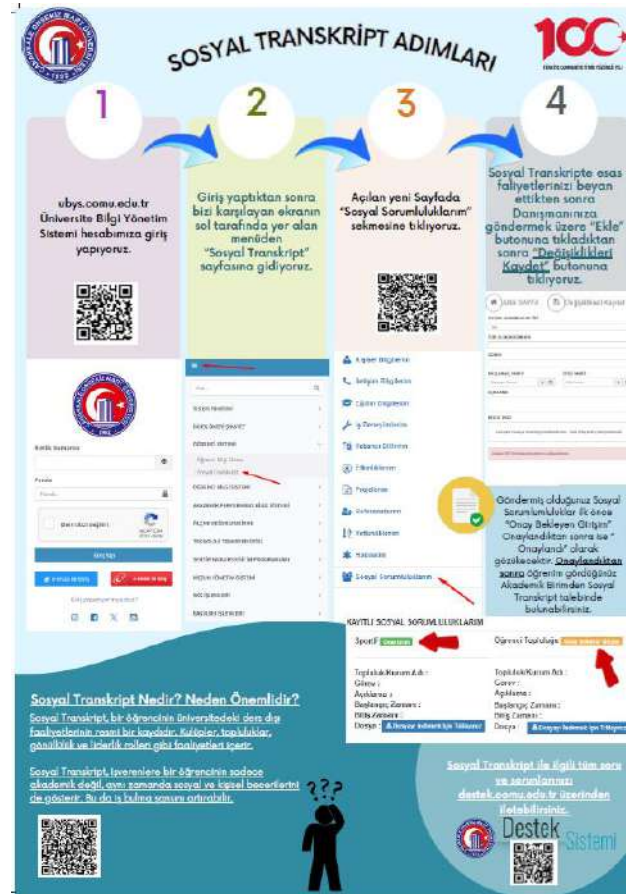

Figure 14. Social transcript tracking system

[The Psychological Counseling Guidance Unit \(PDRB\)](#), which started operating under the Health, Culture and Sports Department in 2004, carries out many studies in order to provide individual and group psychological assistance, organize developmental and educational programs and evaluate the work done in order to help Çanakkale Onsekiz Mart University students get to know themselves, realize their potential and talents, use and develop them, solve their problems, realize themselves and achieve a balanced adaptation to their environment. [The Student Affairs Department](#) provides support for students in summer school and course selection processes. It also provides the necessary infrastructure and coordination for students from different universities to take courses. ÇOMÜ's [Erasmus Unit](#) provides various support services for students in application and other processes. The [International Student Office](#) provides guidance and support services to facilitate residence permit, equivalence and other administrative procedures for foreign students. This office assists students in many matters from registration to placement processes. ÇOMÜ supports foreign students in learning Turkish through [TÖMER \(Turkish Language Teaching](#)

[Application and Research Center](#)). It aims to help hundreds of foreign students who come to our university, as well as Erasmus students and individuals who want to learn Turkish as a foreign language for various reasons, in language learning. In addition, students are offered language education opportunities with the foreign language school. Our university aims to help students develop their social skills, adapt to university life more easily and encourage more active participation in social activities by organizing social and cultural events.

### 06.2.2. Accessibility for Disabled Students

Çanakkale Onsekiz Mart University makes various arrangements to ensure the full participation of disabled students in their education and social life. The [University Disabled Student Unit aims](#) to identify the needs of students with special needs in terms of education, training, scholarship, administrative, physical, accommodation, social and similar areas during their education, to determine the measures to be taken to meet these needs and to offer solution suggestions to eliminate them, and to carry out the necessary arrangements in coordination with other units or departments in the university. In addition, the unit works to provide free auxiliary equipment for students with special needs who are experiencing economic difficulties. In order to ensure that all students are subject to fair and accurate measurement and evaluation, to ensure equal opportunities and to make the educational process meaningful for these students; is responsible for providing the disabled student with the necessary time, place, material, companion reader for the exams and taking the necessary precautions and making arrangements according to the differences arising from the nature of the disability. The Disabled Student Unit has prepared [surveys](#), [building observation forms](#), [disabled student needs determination forms](#) and published them on its website in order to meet the physical and educational needs. It determines accessibility needs thanks to these forms and surveys. In line with the data obtained from these forms, studies are carried out to eliminate accessibility problems on campus. The [2023 Disabled Coordination Unit Orientation Meeting](#) was held at the Troia Cultural Center on Thursday, December 28, 2023, with the coordinators and unit managers in 38 units under the chairmanship of the Disabled Student Unit Coordinator, and the current situation and improvement suggestions were made.

Çanakkale Onsekiz Mart University makes appropriate arrangements for disabled students and staff in order to increase physical accessibility on campus. These arrangements include ramps, elevators and disabled toilets at the building entrances. In addition, there are also areas suitable for wheelchair use and additional devices such as [induction loop systems](#).

Çanakkale Onsekiz Mart University's Oral and Dental Health Application Center has become the [first healthcare institution to receive an accessibility certificate](#). In addition, the university has applied to the Barrier-Free University Flag Awards organized by the Council of Higher Education to demonstrate its commitment to accessibility (Figure 15).

Figure 15. Çanakkale Onsekiz Mart University's Oral and Dental Health Practice Centre is the first health institution to receive an accessibility certificate.

There is one Braille alphabet printer and three bag-type induction loop devices to [provide materials to disabled students in accessible formats](#). In addition, special educational materials such as audio books have been made available to our students. Petition samples and requirement determination forms are used to make the necessary arrangements in exams and courses. Çanakkale Onsekiz Mart University continues its work to ensure the full participation of disabled students in university life and to implement the best practices in accessibility (Figure 17, 18,19).

Figure 16. Braille printer

Figure 17. Three bag type induction loop system devices

There is a special disabled group study area for the visually impaired in our library.

Figure 18. Disabled library

A [solfege class for children with autism](https://www.comu.edu.tr/haber-21788.html) was established for the first time in the world as part of the 3rd Autism and Music Summer School hosted by Çanakkale Onsekiz Mart University State Conservatory (<https://www.comu.edu.tr/haber-21788.html>). Organized to meet the needs of individuals with autism and related communities, to provide support and to raise awareness, and to provide free education, the “Autism and Music Summer School” was realized with the cooperation of Çanakkale Governorship, Çanakkale Municipality, Çanakkale Onsekiz Mart University, ÇOMÜ Faculty of Education, ÇOMÜ State Conservatory, Music Application and Research Center, Çanakkale Music and Performing Arts Development Association, Kütahya Fine Arts Association, Youth and Sports Provincial Directorate, ASKEV, ÇASEMDER and the support of many stakeholders.

### 06.3. Gender Equality

Çanakkale Onsekiz Mart University [Gender Equality Plan](#) covers the principles, strategies and measures to be taken by the university administration to create equal opportunities and secure rights and freedoms at all levels among academic and administrative staff, students and all other employees. This document, which aims to promote gender equality, has been prepared to support equal visibility in public and private spaces, women's empowerment and participation, equal distribution of social resources and opportunities, and women's access to these resources and opportunities, regardless of gender. At Çanakkale Onsekiz Mart University, a public university, there are no gender differences in pay scales for all employees, regardless of gender. This document commits to support male and female academic and administrative staff in parenting and caring for their family members without discrimination between men and women, not only through official leave rights, but also by showing the institutional understanding and sensitivity they may need, supporting them to share their responsibilities equally without discrimination. The [Children's Home and Nursery](#), which has ISO 9001: 2015, ISO 29990: 2010, ISO 21001: 2018 quality certificates affiliated to the Economic Enterprise operating on the Terzioğlu Campus of our university, provides childcare services (Figure 19).

Figure 19. Çanakkale Onsekiz Mart University Children's Home and Nursery

Efforts are made at Çanakkale Onsekiz Mart University to combat sexual harassment and/or sexual assault as a form of discrimination and violence arising from gender inequality and to create a campus environment free from sexual harassment and/or sexual assault. In order to prevent sexual harassment and/or assault, security measures are taken by organizing the physical conditions of the campus, providing a sufficient number of lighting units and security guards for the safety of all individuals in all open and closed areas. In cases of sexual harassment and/or assault, it aims to carry out an effective and rapid investigation and implementation developed within the framework of the relevant disciplinary legislation (Higher Education Law No. 2547 and the relevant provisions of the Civil Servants Law No. 657). Training on "Gender Equality in the Workplace on the Basis of Human Rights" was provided through the distance learning portal on gender equality. Çanakkale Onsekiz Mart University carries out projects to combat violence against women and raise social awareness. These projects include awareness-raising projects such as ["Zero Tolerance in News on Violence Against Women"](#). In addition, a [panel was organized within the scope of the Scientific Research Project \(BAP\) on "Women's Employment in Çanakkale Local Press"](#) supported by Çanakkale Onsekiz Mart University. In addition, a [cooperation protocol](#) was signed between KADEM Çanakkale Provincial Representative Office and Çanakkale Onsekiz Mart University. With the signed protocol, workshops and trainings will be planned and social responsibility projects will be developed in order to raise awareness of women in political, social, legal, economic, cultural life and family life, to support the intellectual and mental development of the family and the child within the scope of the program to support the development of women and young people.

## **06.4. Social Facilities**

### **06.4.1. Nutrition**

The Student Social Activity Center (ÖSEM), which has been in service at the Terzioğlu Campus of our university since January 2005, is a 3-storey modern unit with a total indoor usage area of 9,000 m<sup>2</sup>. There is a 1756 m<sup>2</sup> dining hall area. The meals prepared meet 2.5/5 of the daily energy and nutritional requirements of our students, containing an average of 1200-1400 kcal and 27-33 g protein. Meal menus are prepared by the company manager, warehouse manager, chef, dietician and food engineer and submitted to the approval of the Nutrition Branch Directorate of the Department of Health, Culture and Sports. In 2023, the number of students benefiting from the Nutrition Assistance of our University is 500 (Table 2, Figure 20). In the Part-Time Status, 280 students worked.

Table 2. Dining Hall Capacities

Location	Number of people	Area of Use (m <sup>2</sup> )
1 ÖSEM Student	800	1756
2 Central Staff	150	200
3 Rectorate Staff	50	150
4 Yamac	155	300
5 Vocational School of Technical Sciences	144	280
6 Faculty of Theology	288	700
7 Faculty of Dentistry	120	100
8 Faculty of Education	440	760
9 Biga Ağaköy	626	960
10 Yenice Vocational School	120	264
11 Çan Vocational School	150	348
12 Gelibolu Piri Reis Vocational School	120	215
13 Lapseki Vocational School	100	224
14 Ezine Vocational School	40	190
15 Bayramiç Vocational School	50	306
16 Ayvacık Vocational School	120	110
17 Gökçeada Vocational School	100	135

Figure 20. The Student Social Activity Center (ÖSEM)

#### 06.4.2. Health

[Çanakkale Onsekiz Mart University University Hospital](#), one of the most important health institutions in Çanakkale and the only university hospital in the region, offers innovative health services offered by modern medicine with its expert staff and advanced technology infrastructure. Çanakkale Onsekiz Mart University University Hospital started to provide health services in Çanakkale Kepez district on November 12, 2008. The hospital, which started to move to its new building on the Terzioğlu Campus on March 09, 2018, accepted patients to the Emergency Department on March 11, 2018 and started to provide health services in outpatient clinics on March 12, 2018 ( Figure 21-a-b-c-d-e-f). Since 2008, the hospital has assumed a great responsibility in meeting the health needs of both university members and students, city residents and residents of the surrounding provinces. ÇOMU Hospital has received the [Health Tourism Authorization Certificate](#). In addition, ÇOMU Hospital received the "Intensive Care Nursing Certified Training Authorization" from the Ministry of Health, General Directorate of Health Services. In this context, the ["Intensive Care Nursing Certified Training"](#) certificate ceremony was held in the Conference Hall of ÇOMÜ Hospital. The training program lasted for six weeks with 120 hours of theoretical and 120 hours of practice delivered by lecturers, nurses and experts from other fields. Eighteen nurses from ÇOMU Hospital and hospitals of various provinces completed the training and were awarded their certificates.

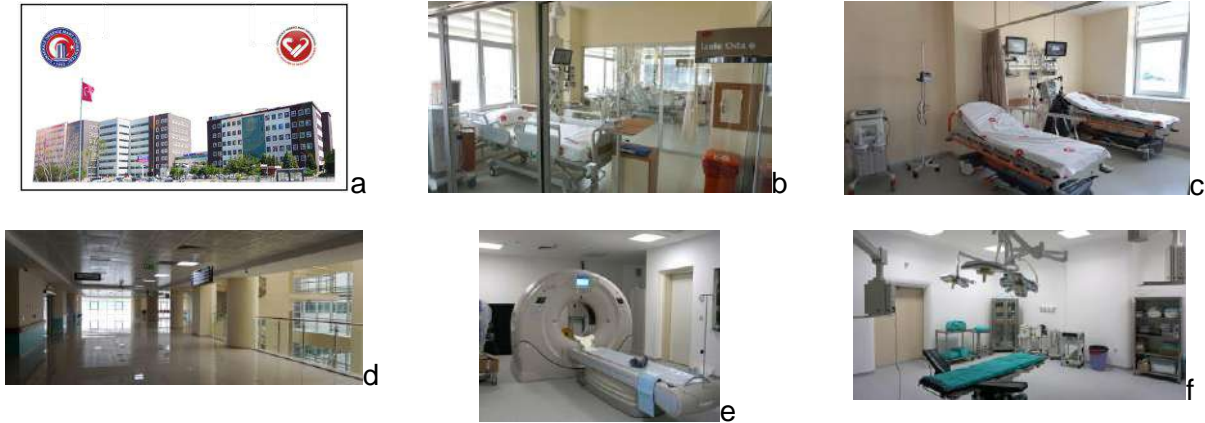

Figure 21. a-b-c-d-e-f: ÇOMÜ Hospital visuals

[Çanakkale Onsekiz Mart University Oral and Dental Health Practice and Research Center](#) was established within the Faculty of Dentistry with the regulation published in the Official Gazette dated March 12, 2019 and numbered 30712. At the end of 2018, after the University Health Practice and Research Hospital in Kepez moved to its new building in Terzioğlu Campus, the clinical infrastructure works of the Faculty of Dentistry and the center, which will provide oral and dental health services in the same building, were completed in 2021 (Figure 22). In the building, which has an area of approximately 8,500 m<sup>2</sup>, there are clinics where oral and dental health services are provided in all dentistry specialty branches as well as education and research activities. In 2021, a license application was made to the Ministry of Health and the license was obtained. The health facility, whose space and equipment deficiencies have also been eliminated, started to serve as of November 01, 2021.

Figure 22. [Oral and Dental Health Application and Research Center](#).

In addition to these, the [Psychological Counseling and Guidance Unit \(PDRB\)](#), which started to serve within the Department of Health, Culture and Sports in 2004, carries out many activities in order to provide individual and group psychological assistance, to organize developmental and educational programs, and to evaluate the studies carried out in order to help Çanakkale Onsekiz Mart University students to know themselves, to realize, use and develop their potential and talents, to solve their problems, to help individuals realize themselves and to ensure a balanced adaptation to their environment.

## Occupational Health and Safety

Within the scope of occupational health and safety, the [Occupational Health and Safety Coordinatorship](#) was established at our university in order to carry out activities to protect the occupational health and safety of employees and to improve occupational safety and to fulfill the requirements and sanctions in the relevant law/legislation.

### 06.4.3. Housing

There are [practices for housing allocation](#) for the benefit of Çanakkale Onsekiz Mart University staff (Figure 23). The university has a total of 39 lodging houses in various campuses, especially in Dardanos Campus and Gökçeada School of Applied Sciences, and in the central campus. There are also 9 guesthouses. There are a total of 11 state dormitories located around Çanakkale Onsekiz Mart University campuses. Of these, 5 are for boys, 5 for girls and 1 mixed dormitory.

Figure 23. Dormitory view

Ahmet Bican Student Dormitory - Male  
Biga Student Dormitory - Female  
Çan Student Dormitory - Male  
Canakkale Girls Dormitory - Female  
Adile Sultan Student Dormitory - Male

Kerime Sultan Student Dormitory - Male  
Nusrat Student Dormitory -Male  
Safiye Hussein Student Dormitory - Female  
Onsekiz Mart Student Dormitory - Female  
Gokceada Student Dormitory - Mixed

[Çanakkale Onsekiz Mart University Scholarship and Housing Coordinatorship](#) evaluates the housing applications made by University students to the dormitory quotas managed by the University or allocated to the University within the framework of predetermined criteria and places deemed appropriate. It can also make these evaluations through computer programs that evaluate and score the qualifications of the applicant students. Through the coordinator, it establishes communication between the academic and administrative units and the institutions and people managing the accommodation places and the students, and provides information that can contribute to the evaluation. Provides counseling and guidance to students on housing issues. Develops suggestions and methods for meeting, monitoring and evaluating housing needs. Prepares reports and comparative analyses on housing activities at regular intervals. Establishes the necessary cooperation with the Scholarship Commission.

In addition, [ARDES Student Dormitory](#), a private dormitory on the Terzioğlu Campus, serves students. The dormitory has many facilities such as internet, ATM, hairdresser, market, café, fitness center, etc. All students can benefit from some of the services provided in these facilities.

#### **06.4.4. Library**

[Çanakkale Onsekiz Mart University Library and Documentation Department](#) started its activities in Anafartalar Campus on 20.10.1993 and moved to its current building with a closed area of 5.000 m<sup>2</sup> in Terzioğlu Campus from the 2005-2006 academic year (Figure 24). With the additional building opened for use in 2014, it continues to serve its users with its rich printed and electronic collection with a seating area of 1000 people in a closed area of 8000 m<sup>2</sup> and a shelf length of 17 km. With its remarkable performance, ÇOMU Library has become the fastest growing university library in Turkey.

Çanakkale Onsekiz Mart University Library is one of the leading research libraries in Turkey with its rich print and electronic collection as well as its physical equipment and facilities. ÇOMU libraries consist of 1 central library, 3 faculty libraries and 9 libraries:

- Central Library (Terzioğlu Campus)
- COMU Biga Library (Ağaköy, Biga)
- Education Library (Anafartalar Campus)
- ÇOMÜ Theology Library (Şekerpinar Campus)
- Faculty of Medicine Library (Temporarily in the Central Library)
- District libraries (Yenice, Ezine, Bayramiç, Gökçeada, Ayvacık, Lapseki, Gelibolu, Çan, Bozcaada)

#### 06.4.5. Culture & Arts & Sports

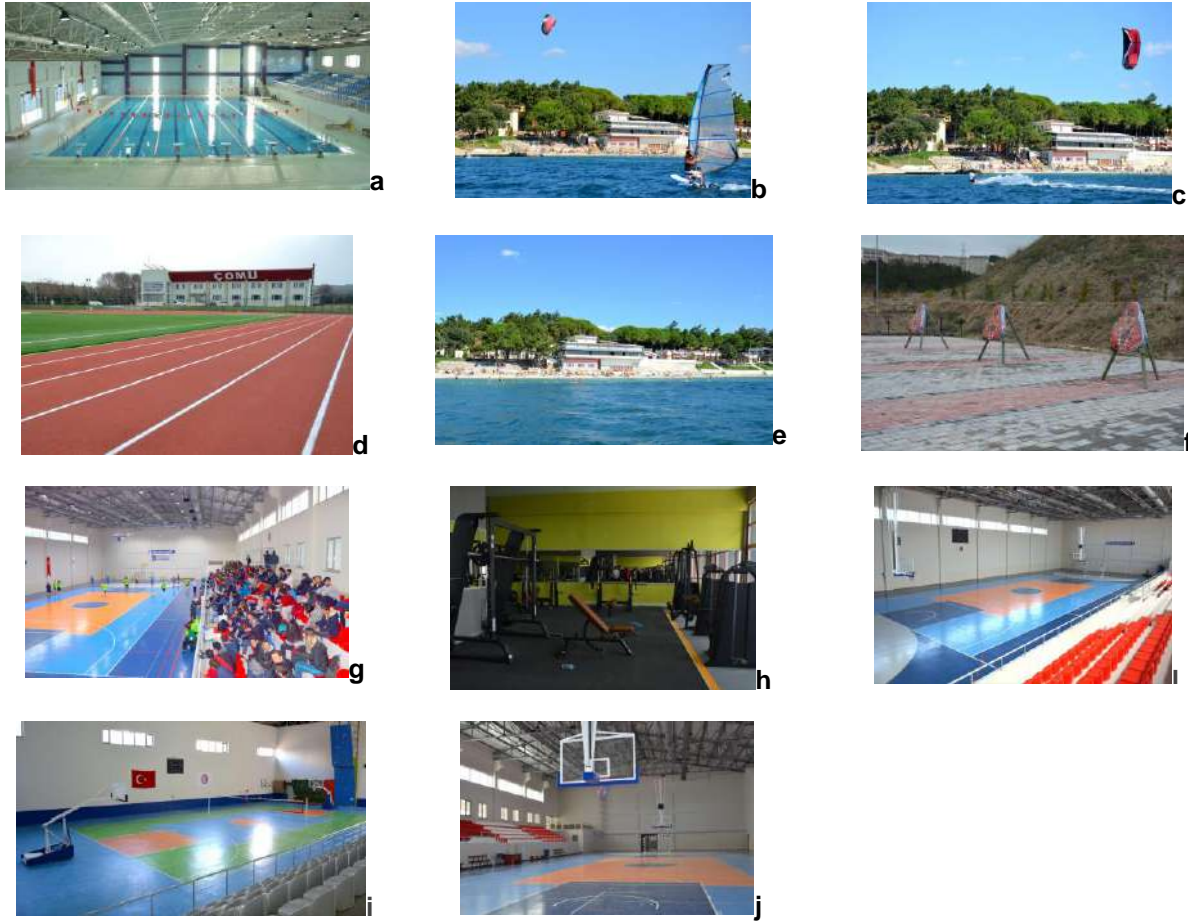

The Department of Health, Culture and Sports is a service unit that meets the social, cultural, nutritional and sports needs of students for the whole of the population it serves at universities, as well as an application department where applications and research are carried out in this field in order to support education and training. The aim of Çanakkale Onsekiz Mart University Department of Health, Culture and Sports is to protect the physical and mental health of students, to protect their physical and mental health, to evaluate their leisure time according to their nutrition, study, rest and interests, to provide services that will enable them to gain new interests, to improve their social status, to develop their talents, to gain regular and disciplined study, rest and entertainment habits (Figure 25).

There are 1 conference hall and 1 congress center operating under the [Department of Health, Culture and Sports](#). Prof. Dr. Sevim BULUÇ Auditorium located in the Troia Cultural Center on Terzioğlu Campus has a capacity of 510 people. In addition, Troia Cultural Center serves our events with four lecture halls.

Çanakkale Martyrs Campus, Faculty of Theology, İÇDAŞ Kara Yusuf Congress Center, 15 July Democracy Martyrs Conference Hall has a capacity of 1119 people and serves our events.

[Çanakkale Onsekiz Mart University Sports Union Coordinatorship](#) was established by the Senate Decision No. 18/30 dated 26.10.2023, which aims to plan and contribute to the execution of practices related to the execution and organization of sports activities within Çanakkale Onsekiz Mart University, to ensure that students participate in physical activities by organizing different sports activities continuously within the university, to participate in competitions in the activity calendar of the Turkish University Sports Federation, and to work to make the university campus a "SPORTS-FRIENDLY CAMPUS" by cooperating with internal and external stakeholders. Our university has hosted various events and tournaments (Figures 25, 27, 28, 29, 30, 31, 32, 33, and 34)

## 06.5. Education and Research

ÇOMU also makes a name for itself with the practical and overseas education, foreign language, library and EU student exchange opportunities it offers to its students. Paying special attention to practical opportunities, ÇOMU provides students with the opportunity to apply the theoretical knowledge they acquire in their courses in practice with its Technopark, laboratories, application and research centers, observatory with the largest telescope in Turkey, radio and television studios, sports halls, theater stages, as well as natural application areas such as Troy, Assos and Gallipoli for history and archeology.

[Çanakkale Onsekiz Mart University Science and Technology Application Center \(ÇOBİLTUM\)](#) was established in 2004 and is a unit operating under the Rectorate (Figure 35a). By organizing its activities within the framework of a central organization and creating a creative and productive research environment; To develop new products and materials that have high added value and require high technology in production and design stages in a way that can serve Çanakkale Onsekiz Mart University, Çanakkale and its surroundings; to carry out studies in branches of science that allow research scientists to work in

interconnected and interdisciplinary fields; to respond to the needs of industrialists and entrepreneurs of the region for all kinds of products, processes and material information based on advanced technologies; to enable master's / doctoral students to carry out scientific-technological studies by using the facilities of the center and to educate, guide and train these students.

[Çanakkale Onsekiz Mart University Experimental Research Application and Research Center \(ÇOMÜDAM\)](#) was opened on May 14, 2012. On January 31, 2013, with the decision number 079 of the Ministry of Agriculture and Forestry, it received the Work Permit Certificate and started experimental animal production and experimental studies (Figure 35b). In addition to many master's theses, experimental processes of BAP and TÜBİTAK projects are carried out by our university staff and students from the laboratory units established within the center. Basically, the laboratory infrastructure is sufficient for many prominent topics such as the evaluation of gene expression from tissue and cell lines, wound healing, anastomosis and biochemical analyzes (WB, gel imaging, etc.). The Stem Cell Laboratory has all the necessary infrastructure for the culture and monitoring of mammalian cells (somatic cells, stem cells and cancer cells). Experimental animals such as rats, mice, rabbits and guinea pigs are raised in the center for use in scientific activities. It is possible to perform many experimental models on these animals. In this respect, the center also serves the universities in the region and offers animal experiments for many new products developed in our university's TEKNOPARK. The center also has specialized devices especially for rabbit anesthesia and monitoring. The ozone device and hyperbaric oxygen treatment cabin specially designed for experimental animals in the center offers opportunities for new approaches in the treatment of many diseases (Figures 36,37).

### 06.5.1. Courses Related to Sustainability

The list of courses is given below according to the [searches made on the basis of SDGs](#) (search criteria are 2023 and courses) where faculty members define their courses by logging into the system on the [AVESİS link on the Sustainability Office Coordination website](#). In courses with more than one SDG defined, the course is listed in the most relevant SDG. Irrelevant courses are not included in the list. There are a total of 73 courses in the relevant SDGs for 2023. Since courses are not fully entered in detail into the AVESİS system with SDGs marked, the list of courses at our university containing the word "Sustainability" or SDG related keywords searched from the UBYS system is given at URL (<https://sustainability.comu.edu.tr/en/page/sustainability-courses-54.html>) (Figure 38).

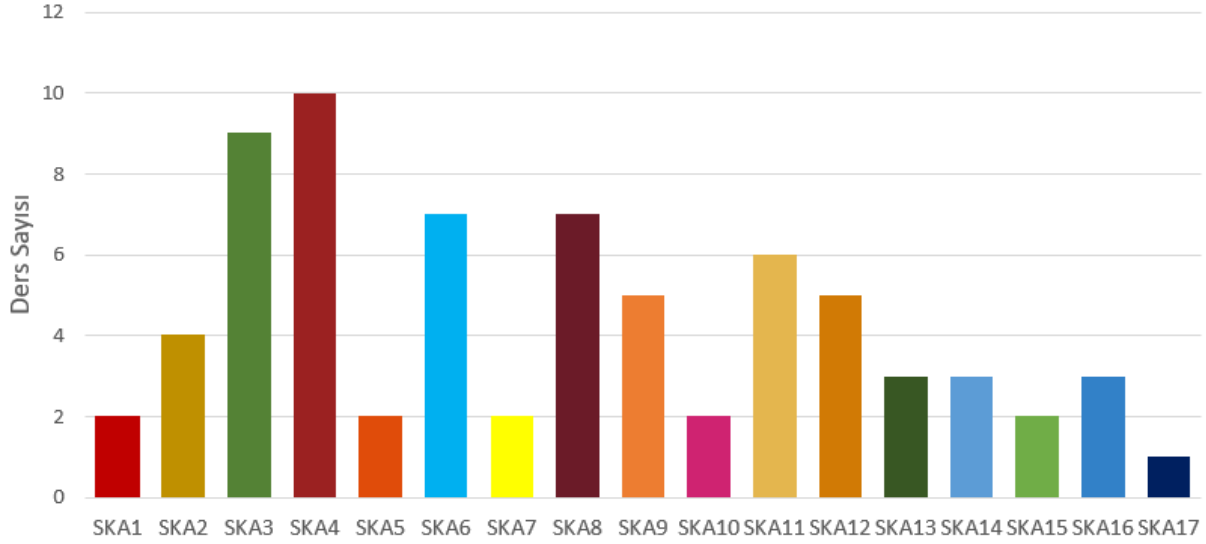

Figure 38. Number of courses that included “Sustainability” and related SDG keywords or were scanned from the UBYS system

### 06.5.2. Sustainability Related Projects

Many scientific projects were carried out within Çanakkale Onsekiz Mart University in 2023. These are given in the table information below (Tables 4,5,6,7,8,9,10,11,12,13,14,15,16,17).

### 6.5.3.1. News

#### January 5, 2023

The EU Erasmus+ project STICORDI: Introducing STICORDI measures focusing on dyslexia, which is coordinated by Ruse Angel Kanchev University and with the participation of faculty members of the Faculty of Education from Turkey, aims to develop innovative methods in the education of children with special needs. The project will be implemented between 2023 and 2025 in cooperation with partners from Belgium, Bulgaria and Turkey. <https://www.comu.edu.tr/haber-21613.html>

#### January 8, 2023

The Erasmus Plus project "Enriching Learning with Augmented Reality Simulations for Interactive Science" has been supported by the Polish National Agency with a budget of 250,000 Euros. The project will be coordinated by Piriteknoloji from Çanakkale Technopark and Assoc. Prof. Dr. Muzaffer Özdemir. The project is coordinated by Uniwersytet Łódzki and has international partners such as Bursa Uludağ University, Polygonal North oy, Innovation Hive and Liceum Ogólnokształcące. The project aims to contribute to students with limited laboratory facilities by making science education interactive with augmented reality simulations and to develop AR-based learning environments for science teachers. <https://comu.edu.tr/haber-21837.html>

**January 8, 2023**

Within the scope of the EU Erasmus+ KA220 Higher Education program, the project "Ecology Awareness of Sustainable Green Development", coordinated by Nitra University of Slovakia and Çanakkale Onsekiz Mart University, was supported with a budget of 250,000 Euros. The project aims to ensure sustainable environmental management cooperation between universities and local actors and to increase the active participation of university students in sustainable development goals. <https://comu.edu.tr/haber-21838.html>

**January 17, 2023**

The project "2022-1-LT01-KA220-SCH-000087659- KA2 Cooperation Partnerships", coordinated by Baltic Education Technology Institute and in partnership with Çanakkale Onsekiz Mart University, has been deemed worthy of support by the Lithuanian National Agency with a budget of 400 thousand Euros. The project aims to increase the participation and interest of school students in STEM subjects and encourage their interest in technology through digital education and augmented reality. <https://www.comu.edu.tr/haber-21622.html>

**March 12, 2023**

Çanakkale Onsekiz Mart University Social Responsibility Unit sent these support activities to Hatay under the coordination of AFAD within the scope of the "Black Day Friend" project initiated after the earthquakes on February 6, 2023. It is aimed to deliver the aid collected with the contribution of volunteer students within the university to the earthquake victims. <https://comu.edu.tr/haber-22348.html>

**June 19, 2023**

The "Soil to Table STEAM" Project (Project No: 122B585), which was carried out within the scope of TUBITAK Nature Education and Science Schools Support Program-4004, was led by Çanakkale Onsekiz Mart University Faculty of Education faculty member Assoc. Prof. Ganime Aydın. The main objective of the project is to raise awareness on green and sustainable agriculture literacy through STEAM (Science, Technology, Engineering, Art, Mathematics) activities for 26 middle school level migrant and earthquake survivor students living in Çanakkale. In addition, the project also emphasized the aim of giving hope to migrant children in Turkey due to migration, war and terrorism. <https://comu.edu.tr/haber-21773.html>

**July 20, 2023**

The "FIRST DIGITAL 100" project, prepared in collaboration with Çanakkale Onsekiz Mart University Faculty of Tourism and Çanakkale Municipality Strategy Development Unit Project Teams, has been awarded a grant under the Alternative Tourism Destinations Financial Support Program of the South Marmara Development Agency. The project aims to make the cultural and urban values of Çanakkale city center visible and accessible in line with changing consumer trends and technological developments; to make a sustainable contribution to the economic, social and cultural growth of the city and to support ecological values. In this context, it is aimed to digitize the urban destination inventory to be integrated into the KAL-E application to be developed with Web 3.0 technologies and to create a Barrier-Free, Digital and Climate-Friendly park enriched with new generation digital technologies, where tourism and cultural values will be presented multimedia with augmented and virtual reality tools. <https://comu.edu.tr/haber-21811.html>

**July 27, 2023**

The "Ghost Net Hunters" project aims to clean up lost or abandoned fishing gear in the seas in cooperation with Çanakkale Onsekiz Mart University and Balıkesir Metropolitan Municipality. In the Edremit Gulf, ghost nets were collected in a total area of 50,000 square meters in the Aegean and Marmara Seas, and these nets that harm the marine ecosystem were removed. <https://comu.edu.tr/haber-21822.html>

**July 27, 2023**

The meeting of the project titled "Encouraging Young Farmers To Produce Compost For Healthy Soil And Organic Food Using Innovative Solutions - COMPOSTER", supported under the Erasmus+ Partnerships for Cooperation in Vocational Education activity, was held in Vilnius, the capital of Lithuania. The ultimate goal of the project is to improve soil health and organic production by teaching the composting process. The project aims to establish long-term cooperation between Turkey, Lithuania and Spain, develop best practices in compost production in accordance with EU standards, and design and implement training programs. It also aims to train farmers and implement innovative composting methods. <https://comu.edu.tr/haber-21823.html>

**July 31, 2023**

Prof. Kemal Çelik's project "Academic Partnership for Health Improvement of Youth With Health Disorders and Special Needs" has been found worthy of support under the Erasmus+ Higher Education Program. The project will last for 36 months in partnership with Bulgaria, Turkey, Italy, Kazakhstan, Hungary, Hungary, Spain and Republic of Moldova and will have a total budget of 400.000 Euros. The project aims to implement nutrition and physical activities with scientific methodologies by providing activities and training for the prevention of obesity and obesity-related diseases among young people aged 17-25. <https://comu.edu.tr/haber-21830.html>

**September 1, 2023**

The 'Let My Brother Not Be Cold' project, which was carried out at the Şehit Uzman Çavuş Aycan Özdil Secondary School in Gülpınar Village in Ayvacık district of Çanakkale, aims to meet the winter clothing needs of young students in cooperation with the Social Responsibility Unit of ÇOMU Corporate Communication Coordinatorship, ÇOMU Faculty of Communication and UEDAŞ. The event was enlivened with activities such as face painting, dancing and gift distribution with the participation of volunteer students on January 6. <https://www.comu.edu.tr/haber-22346.html>

**September 10, 2023**

The research titled "Factors Determining the Vote Preference of Young Individuals in the 2023 Elections" conducted by Assoc. Prof. Mehmet Avcı and his students were found worthy of support within the scope of TÜBİTAK 2209-A Program.

Prof. Dr. Assist. The project titled "Measuring the Environmental Literacy of Public Administration Department Students", carried out under the supervision of Prof. Dr. Nahit Bek, was found worthy of support within the scope of TÜBİTAK 2209-A Program.

Prof. Dr. Lecturer. Prof. Dr. Verda Davaslıgil Atmaca, the project titled "Analysis of Migration Phenomenon in Turkey with Convergence Clubs" was found worthy of support within the scope of TÜBİTAK 2209-A Program.

Research Assistant. Assist. The project titled "Measuring the Level of Political Polarization Among University Students", carried out under the supervision of Tahir Anıl Güngördü, was found worthy of support under the TÜBİTAK 2209-A Program.

Prof. Dr. Assist. Prof. Dr. Merve Ertok Onurlu, the project titled "Socio-Economic and Demographic Determinants of Age at First Marriage in Women" was found worthy of support within the scope of TÜBİTAK 2209-A Program 2023/1 period.

**September 14, 2023**

The MASTERPIECE project aims to develop a digital coordination and collaboration platform to support the creation and operation of energy communities across Europe with the participation of 19 partners from 7

countries. The project aims to contribute to the European Union's green energy goals by introducing innovative approaches to energy management and sustainability. <https://comu.edu.tr/haber-21932.html>

#### **September 20, 2023**

The scientific research project titled "Design, Development and Evaluation of Web-Based Escape Rooms Supporting the Teaching Process in Pre-Graduation Medical Education", conducted by ÇOMÜ Faculty of Medicine Faculty Member Assoc. Prof. Dr. Çetin Toraman, was found worthy of support by TÜBİTAK. <https://comu.edu.tr/haber-21938.html>

#### **September 20, 2023**

Çanakkale Onsekiz Mart University Department of Geological Engineering, "Determination of Paleoseismological Characteristics of Turkey's Resisting Faults", supported by TÜBİTAK 1007 program, with the participation of 98 scientists from 14 universities and 21 institutions, is expected to make significant contributions to Turkey's earthquake hazard map with detailed mapping of fault segments and paleoseismological analysis. <https://comu.edu.tr/haber-21948.html>

#### **September 21, 2023**

The interdisciplinary project titled "Mathematical Modeling of Visnagin and Khellin's Bioreaction Processes" by Dr. Onur Sinan Türkmen, Faculty Member of ÇOMÜ Faculty of Agriculture, was found worthy of support within the scope of the 1507 SME R&D Initiative Program 2023-1 Call, which targets the biotechnological production of herbal pharmaceutical raw materials. <https://comu.edu.tr/haber-21952.html>

#### **September 25, 2023**

The European Union (EU) project titled "Skill Sets and Needs for Behavioral Science Lab", prepared under the title of Erasmus+ KA210-VET Vocational Education Cooperation, coordinated by Çanakkale Technology Development Zone A.Ş., was found eligible for support by the Turkish National Agency. The project aims to strengthen national and international cooperation with the aim of establishing a behavioral science laboratory at international standards and training competent researchers. <https://comu.edu.tr/haber-21959.html>

#### **September 26, 2023**

The research project titled "Development of Scenarios and Strategies to Increase the Resilience of the Economy of TR63 Region", in which Çanakkale Onsekiz Mart University Faculty of Political Sciences Faculty Members Assoc. Prof. Dr. Ahmet Tunç and Prof. Dr. Veli Yılcı are researchers, and was found worthy of support within the scope of "TUBİTAK 1001 Scientific and Technological Research Projects Support Program - Binbirçaba". <https://comu.edu.tr/haber-21962.html>

#### **October 4, 2023**

The project titled 'Investigation of medical imaging and therapeutic applications of graphitic carbon nitride (g-C<sub>3</sub>N<sub>4</sub>) and carbon quantum dot (CQ-dot) doped Hyaluronic acid-Gd(III) and Hyaluronic acid-Fe(III) composite particles' was approved to be supported by the Ministry of Health within the scope of the Presidency of Turkish Institutes of Health (TÜSEB). <https://www.comu.edu.tr/haber-21985.html>

#### **October 11, 2023**

Within the scope of TUBİTAK 2209-A Program, Yusuf Kaan Ongan's project titled "Determination of Antagonistic Effects of Using Lactobacillus plantarum in Fermented Mussel Paste Production on Product Characteristics and Vibrio Spp. Species" and Ceyda Kalemli's project titled "Evaluation of Catch Amounts of Mackerel Species in Plain Extension Nets in Marmara Sea" were found worthy of support. <https://comu.edu.tr/haber-22001.html>

**October 17, 2023**

The projects titled "Water Sifter," "Techno-Bike Stand Prototype Development Project" and "Su Kapar" were carried out under the supervision of Assoc. Prof. Alper Sağlık were found worthy of support within the scope of TÜBİTAK 2209-A University Students Research Projects Support Program 2023/1 period. <https://www.comu.edu.tr/duyuru-22013.html>

**October 18-23, 2023**

The "Bozcaada Underwater Days Social Responsibility" project, which was carried out for the 5th time in 2023, was carried out by Assoc. Prof. Dr. Hasan Barış Özalp in cooperation with Çanakkale Onsekiz Mart University Maritime Vocational School Directorate and Bozcaada Breakwater Magazine Management. The project aims to provide the public and relevant community organizations with detailed information about scientific studies, to increase public awareness and sensitivity, to develop social awareness of our newly trained students and to gain professional experience by ensuring their participation in projects with a sense of social responsibility. Scientific presentations, underwater photography exhibition, underwater cleaning activities, underwater documentary screenings and Bozcaada harbor underwater cleaning activities were carried out with the participation of primary school students in Bozcaada, and 118 participants were informed within the scope of the project. <https://denizcilikmyo.comu.edu.tr/arsiv/haberler/bozcaada-sualtiguunleri-projesi-gerceklestirildi-r488.html>

**October 20, 2023**

The "Ceramic Mosaic Surfacing Project" protocol to be carried out in cooperation with Çanakkale Onsekiz Mart University, Çanakkale Municipality and Kaleseramik Çanakkale Kalebodur Seramik San. The "Ceramic Mosaic Surface Coating Project" protocol, to be carried out in cooperation with Çanakkale Municipality and Kaleseramik Çanakkale Kalebodur Seramik San. A.Ş., aims for education-oriented outputs with an understanding of recycling and site-specific design. <https://comu.edu.tr/haber-22025.html>

**October 25, 2023**

The project titled "A New Unit Root Test Proposal Based on Fourier Function and LSTAR Models and Testing the Jump Hypothesis in E7 Countries", led by Prof. Dr. Veli Yılcı and Assoc. Prof. Dr. Ahmet Tunç, was found worthy of support within the scope of TÜBİTAK 1002 Short-term Support Program.

**November 2, 2023**

In the "Research Platform for Determining the Paleoseismological Characteristics of Turkey's Resisting Faults" project conducted by TÜBİTAK, 14 universities, including Çanakkale Onsekiz Mart University, will develop nationwide disaster risk reduction strategies by examining the seismicity history of fault segments; ÇOMÜ's Geological Engineering Department will take part in the investigation of important fault lines in the Marmara Region and will carry out excavation, dating and detailed mapping studies in this process.

**November 2, 2023**

Erasmus+ K154 "Be a Communication Leader! Manage Disaster!" project was supported by the National Agency.

**November 3, 2023 TUBITAK 1002**

Çanakkale Onsekiz Mart University Faculty of Architecture and Design, Department of Landscape Architecture, Prof. Dr. Tülay Cengiz Taşlı's project proposal titled "Modeling of Land Use/Land Cover Change: Simulation of Ayvacık District of Çanakkale Province" was accepted within the scope of TÜBİTAK 1002-A Short-term Support Module.

**November 3, 2023**

The project titled "Design and Manufacturing of Ultrasonic Nozzle + Generator for Spray Coating System", carried out by the Teknopark company, of which Çanakkale Onsekiz Mart University Faculty of Science Department of Physics faculty members Prof. Dr. Vildan Bilgin and Prof. Dr. Ayşe Küçükarslan and Dr. Emrah Sarıca from Başkent University are the founding partners, was found worthy of support within the scope of 1507 SME R&D Startup Support Program.

**NOVEMBER 3, 2023**

Prof. Dr. Vildan Bilgin, Prof. Dr. Ayşe Küçükarslan, Prof. Dr. Mustafa Tunalı, Prof. Dr. Esra Ercan from Çanakkale Onsekiz Mart University, Lecturer from Biga Vocational School Assist. Dr. İbrahim Güneş from Biga Vocational School and Dr. Emrah Sarıca from Başkent University, the project titled "Manufacturing of Nano-Hydroxyapatite Coated Glass Test Tubes with USP and Preparation of NHA-PRF" was found worthy of support within the scope of 1501 Industrial R&D Projects Support Program.

**NOVEMBER 7, 2023**

Under the supervision of Prof. Dr. Ayşegül Kırca Toklucu from Çanakkale Onsekiz Mart University Faculty of Engineering, Prof. Dr. Mustafa Kurt and Dr. Lecturer Nihat Yavuz from Yenice Vocational School. Prof. Dr. Mustafa Kurt and Dr. Nihat Yavuz from Yenice Vocational School as researchers. Assist. Zişan Çölgeçen from Yenice Vocational School, the project titled "Design of Drying Oven Using Carbon-Based Radiant Heater and Optimization of the System" was deemed eligible for support within the scope of TÜBİTAK 1002-A Short-term Support Module.

**NOVEMBER 7, 2023**

The project titled "Improvement of Vocational Skills of Electromechanical Technicians for Unmanned Aerial Vehicle Maintenance and Repair", coordinated by Balıkesir University Edremit School of Civil Aviation and Çanakkale Onsekiz Mart University is supported by the EU Erasmus+ KA220-VET program and aims to improve the skills of electromechanical technicians in UAV maintenance and repair at international standards.

**November 7, 2023**

Prof. Dr. Tosunoğlu Faculty of Science undergraduate student and his TÜBİTAK-2209 project will hang birdhouses on the Terzioğlu Campus of Çanakkale Onsekiz Mart University, which aims to monitor the bird population of the campus and protect species affected by forest fires.

**November 8, 2023**

The career fair organized within the scope of the "Renewable Youth Energy (RE-You)" project, carried out in cooperation with Çanakkale Onsekiz Mart University and Balıkesir University, started on May 9 at Çanakkale Onsekiz Mart University Dardanos Campus. The EU-funded project aims to address skills gaps by focusing on digital and green technologies. The fair was attended by around 40 renewable energy companies and institutions, and opening speeches were made by Çanakkale Onsekiz Mart University Rector Prof. Dr. R. Cüneyt Erenoğlu, EU Delegation to Turkey officials and project coordinators. The project provided young people with 280 hours of training in the field of renewable energy and job opportunities with companies in the sector. The fair aims to provide young graduates with information about the renewable energy sector and career opportunities (Figure 39).

Figure 39. Opening of "Renewable Youth Energy (RE-You)" carried out in cooperation with Çanakkale Onsekiz Mart University and Balıkesir University.

### November 9, 2023

The project titled "Troy Intercultural Dialogue Platform" to be carried out with Çanakkale Onsekiz Mart University and other partners was supported by the Ministry of Culture and Tourism (Figure 40).

Figure 40. "Troya Intercultural Dialogue Platform" poster

### November 13, 2023

The "Missing Bricks" project, led by Çanakkale Onsekiz Mart University Faculty of Communication, Department of Journalism, Assoc. Prof. Dr. Onur Tatar and co-applicant Prof. Dr. Levent Genç, Faculty of Architecture and Design, was found worthy of support under the third open call of the European Union Culture CIVICs Artistic Production Fund. aims to emphasize rural development and gender equality through artistic expression.

**November 18, 2023**

Çanakkale Onsekiz Mart University Social Responsibility Project Coordinatorship developed the "Breathe into the Future" project following the forest fires that occurred on August 22, 2023. Çanakkale Onsekiz Mart University Social Responsibility Project Coordinator Assoc. Prof. Dr. Hicran Özlem Ilgın, Deputy Coordinator Assoc. Prof. Dr. Nazan Çalbayram and volunteer students contributed to the planting of thousands of saplings in the areas affected by the fire in Çanakkale.

**November 22, 2023**

Çanakkale Onsekiz Mart University Faculty of Fine Arts, Department of Textile and Fashion Design faculty member Assoc. Prof. Dr. Kenan Saatçioğlu's project titled "Sustainable Upcycling and Life Cycle Analysis (LCA) of End-of-Life Advertising Posters in the Fashion Industry" was supported within the scope of TÜBİTAK-2219 Postdoctoral Research Fellowship Program.

**November 24, 2023**

Çanakkale Onsekiz Mart University aims to strengthen cooperation among the universities of the Turkic World and preserve common cultural values by participating in the Turkic World Digital Citizenship Project based on İsmail Gaspıralı's motto "Unity in Language, Idea, Work". The project aims to encourage Turkish youth to unite on common grounds by developing digital citizenship awareness.

**November 24, 2023**

The project 'STEM and Culinary Fantasies' with the number 2023-1-BG01-KA210-VET-8E38E911, supported by the European Union, is a partnership project aiming to promote STEM education and preserve local identity. The project will focus on the development and promotion of culinary culture with partners from Bulgaria, Italy and Turkey, lasting 12 months and creating a model for preserving cultural diversity at European level.

**November 30, 2023**

Çanakkale Onsekiz Mart University Women and Family Studies Application and Research Center developed the "Zero Tolerance in News on Violence Against Women" Project. Rector Prof. Dr. R. Cüneyt Erenoğlu emphasized that violence against women is a social problem and stated that the project will contribute to raising awareness of media workers on this issue.

**December 4, 2023**

Çanakkale Onsekiz Mart University Faculty of Education Faculty Member Prof. Dr. Hasan Arslan's project "Blended Learning to Increase Math Success" was supported in the Erasmus + KA220-HED category.

**December 14, 2023**

The project titled "Development of Technology Transfer Strategies of Çanakkale Technopark (TTO) for University-Industry Cooperation and Regional Development" prepared by Çanakkale Onsekiz Mart University and Çanakkale Technopark was found worthy of support within the scope of TÜBİTAK 1601 - Support Program for Capacity Building in Innovation and Entrepreneurship Areas.  
<https://www.comu.edu.tr/haber-22189.html>

#### December 29, 2023

Çanakkale Onsekiz Mart University Biga Faculty of Applied Sciences, Department of International Trade and Logistics faculty member Prof. Dr. Yener Pazarcık, Prof. Dr. Mustafa Kara, Dr. Lecturer Umut Eroğlu and Ph. Prof. Dr. Mustafa Kara, Prof. Dr. Umut Eroğlu and PhD Student Ramazan Gündem as researchers, "The Use of Unmanned Aerial Vehicles (UAV) in the Logistics Sector in Turkey: A Research for the Formulation of Policies and Strategies on Problems and Solutions" was found worthy of support within the scope of TÜBİTAK 3005-Innovative Solutions in Social Sciences and Humanities Research Projects Support Program. <https://www.comu.edu.tr/haber-22227.html>

#### December 29, 2023

According to the Scientific Evaluation Results of TUBITAK-ARDEB 2023 2nd Term 1001 Projects, Çanakkale Onsekiz Mart University Faculty of Humanities and Social Sciences faculty member Dr. Assoc. Prof. Dr. Bengi Ünal and Faculty of Education faculty member Assoc. Prof. Dr. Şerife Gonca Zeren and "Understanding Attitudes Towards Online Romantic Relationships and Dating/Friendship Practices: Personality, Attachment Styles, Online Self-Disclosure, Attractiveness of Social Media and Self-Competence Towards New Technologies" by Associate Professor Şerife Gonca Zeren were found worthy of support.06.5.4. Conferences/Workshops/Panels

### 6.5.4. Conferences, Panels, Workshops and Trainings

#### 06.5.4.1. Conferences

Çanakkale Onsekiz Mart University has hosted many conferences. These are shown in Figures 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65.

### 06.6. Social Solidarity

#### 06.6.1. ÇOMÜ Boutique

The [ÇOMÜ Boutique project](#), affiliated to the ÇOMÜ Social Responsibility Project Coordinatorship, is an activity where students can meet their basic needs such as clothing, supplies, household goods, stationery, etc. free of charge. Students of our university and citizens directed to our coordinatorship by public institutions and organizations can benefit from this project. The ÇOMÜ Boutique project, which is affiliated to the ÇOMÜ Social Responsibility Project Coordinatorship, defines a total of 10 clothing rights, 5 pieces in the fall semester and 5 pieces in the spring semester, based on the academic calendar. The food packages prepared by the ÇOMÜ Boutique team are delivered 1 (one) time each month after the necessary identification is presented. Household goods in the inventory are delivered to the person who requests them after presenting the necessary identification. Within the scope of the ÇOMÜ Boutique project affiliated to

the ÇOMÜ Social Responsibility Project Coordinatorship, the products requested within the scope of the ÇOMÜ Boutique project can benefit from the Student ID cards issued by our university, and the citizens directed by public institutions and organizations to the coordinatorship can benefit by presenting their T.R. ID cards. Within the scope of the ÇOMÜ Boutique project under the ÇOMÜ Social Responsibility Project Coordinatorship, basic needs such as clothing, supplies, household goods, stationery can be delivered via social media accounts, internal number and website (Figure 90).

Figure 90. [ÇOMÜ Boutique](#) affiliated to ÇOMÜ Social Responsibility Project Coordination

### 06.6.2. Earthquake

Çanakkale Onsekiz Mart University Social Responsibility Project Coordinatorship started to implement the "Friend in Need" project after the earthquakes that occurred in Kahramanmaraş on February 6, 2023. The earthquakes of magnitude 7.7 and 7.6 in Pazarcık and Elbistan districts of Kahramanmaraş affected many citizens living in 10 provinces. The team, which continued to work intensively after the disaster, sent the products to Kepez City Port to be delivered to the earthquake zone as a result of the support received. Emphasizing that the support packages included 2 pallets of clothes, 2 pallets of hand disinfectants and masks, many blankets and cleaning supplies, the ÇOMÜ Boutique team delivered many products to the earthquake zone under the coordination of AFAD. After the earthquake, two support trucks were sent in the first stage; in addition, as a result of the delivery of countless support to the ÇOMÜ Boutique area and the coordinated work of 350 volunteer students, the [third support truck](#) was delivered to the earthquake zone under the coordination of AFAD. The ÇOMÜ Boutique team, within the scope of the campaign, sent the third truck to the earthquake zone. support packages in the 3rd truck sent to the earthquake zone within the scope of the campaign; 9200 pieces of women's clothing, 8000 pieces of men's clothing, 5400 pieces of children's clothing, 4500 pieces of children's pants, 1330 coats, 348 packs of toilet paper, 10 heaters, 65 boxes of food, 480 blankets, 800 baby food, 790 wet wipes, 1348 packs of diapers, 2032 hygiene products, 680 packs of water, 4 packs of disposable covers, 100 electronic items, 4480 sanitary pads, 2000 scarves, berets, gloves and 1700 socks (Figure 91).

*Figure 91. Çanakkale Onsekiz Mart University Social Responsibility Project Coordination, 'Friend in Need' project following the earthquakes that occurred in Kahramanmaraş on February 6, 2023*

After the February 6, 2023 earthquake centered in Kahramanmaraş, the Social Responsibility Project Coordinatorship continued to work in the earthquake zone without a break. The coordinatorship did not forget the earthquake zone and came together with the little ones in Hatay between November 5 - 10 within the scope of the "One Book One Letter" Project. While Coordinator Assoc. Prof. Dr. Hicran Özlem Ilgın and the Social Responsibility Project team set out to improve 2 libraries in Hatay, the project touched the hearts of citizens affected by the earthquake living in 4 schools, 2,275 students and 1 container city. In Antakya / Yüksel Kemal Behzetoğlu Anatolian High School, Hatay Akhisar 125th Year Primary School, Antakya / Sümerler Secondary School, Kırıkhan / Yunus Emre Primary School and İskenderun / Üsküdar container city, 6,000 books collected with the ["One Book One Letter"](#) project initiated by ÇOMU Social Responsibility Project Coordinatorship and activities were held. Within the scope of the activities, face painting, balloon activities, coloring the walls of the schools and fun activities were organized for the little ones (Figure 92).

*Figure 92. "One Book One Letter" project initiated by ÇOMU Social Responsibility Project Coordination*

In order to heal the wounds of the citizens affected by the disaster in the earthquake regions and reduce their suffering, Çanakkale Onsekiz Mart University Hospital Deputy Chief Physician Dr. Lecturer. Prof. Dr. Semih Petekkaya, Deputy Chief Physician of Çanakkale Onsekiz Mart University Hospital, Research Assistant Dr. Umut Oktay, Health Technician Fatih Sertçe, Ambulance Driver Yavuz Varlı and Burhan Çevik, [1 fully equipped ambulance set off to the region with medical supplies](#). In addition, Civil Engineer Fatih Şerif Coşan and Civil Engineer Mehmet Alper Çelebi from the staff of ÇOMU Department of

Construction and Technical Affairs support the damage assessment works of the earthquake that occurred in Kahramanmaraş on February 6, 2023 and affected the surrounding provinces. Coşan and Çelebi were [assigned to carry out damage assessment studies](#) in Hatay province within the scope of Turkey Disaster Response Plan (TAMP) with the instruction of the General Directorate of Construction Works of the Ministry of Environment, Urbanization and Climate Change and with the approval of Çanakkale Governor's Office. As [Çanakkale Onsekiz Mart University ÇABA Multi-Purpose Early Childhood Education Center \(ÇABAÇAM\)](#), 3 separate ÇOMU ÇABAÇAM Education Support Units, two in Adıyaman and one in Kahramanmaraş, were established for preschool children between the ages of 3-6 in two separate tent cities established in Kahramanmaraş and Adıyaman provinces, which were severely damaged by the earthquake (Figure 93).

Figure 93. a-b-c-d. [ÇOMU ÇABAÇAM Education Support Unit](#)

Our university's Faculty of Health Sciences, Department of Emergency Aid and Disaster Management was given a certificate of appreciation by Çanakkale Municipality for the service it provided to our earthquake victim citizens who came to our city after the earthquake disaster that occurred in Kahramanmaraş on February 6, 2023 and affected 11 provinces (Figure 94).

Figure 94. Document given to the Department of Emergency Aid and Disaster Management of the Faculty of Health Sciences of our University

### **06.6.3. Fire**

On August 22, 2023, Çanakkale Onsekiz Mart University supported Çanakkale Onsekiz Mart University at the point of social contribution in the forest fire disaster that occurred in the forest area near Kayadere Village of Çanakkale Center and threatened the Terzioğlu and Ulupınar Campuses of our university. With the action plans of the "University Crisis Desk" created, our academic and administrative staff and students worked with the principle of volunteerism at every stage of the fire disaster without the concept of working hours. Following the forest fire disaster, Çanakkale Onsekiz Mart University continued its efforts in the region and provided [blanket support](#) in the villages affected by the fire under the coordination of ÇOMÜ Boutique and sponsorship of Kolunsağ company. In this context, visits were made to Ulupınar, Yağcılar, Değirmenköy and Aşağıokçular villages. With the Black Day Friend Project 2 project, material support was provided to the teams on duty in the Çanakkale fires that occurred on July 17 and August 24.

## 07. ENVIRONMENTAL IMPACT

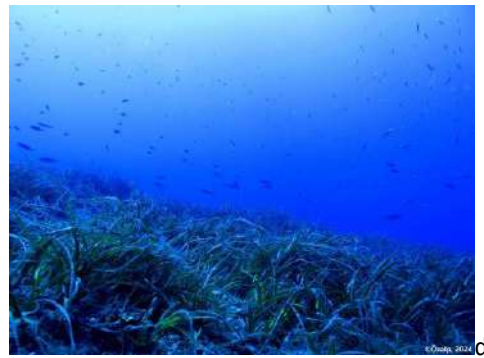

### 07.1. Supporting Biodiversity

The campuses of our university have green areas that will meet the functions of education, transportation and housing, as well as recreation functions with planned seating areas, walking paths, natural green areas and landscaping arrangements. Green areas constitute the majority of open spaces where students, lecturers and other users can engage in various activities outside working hours. Various scientific studies are carried out to identify, protect and support the biodiversity of our campuses.

#### Sea Life Support Program

Endangered coral reef was put under protection in 2021, published in the [official gazette](#).

([First official protection in Turkey for the endangered Coral \*Cladocora caespitosa\* \(Çanakkale-Dardanos\) | United Nations Development Programme, Türkiye'nin İlk Sert Mercan Resifi Koruma Alanında ÇOMÜ İmzası, Çanakkale Boğazı Dardanos Mercan Resifi Biyoçeşitlilik ve Sualtı Canlı Yaşamı, Türkiye'nin İlk Sert Mercan Resifi Koruma Alanında ÇOMÜ İmzası, Dardanos Mercan Resif Koruma Alanı - Türkiye Yaban Hayatı](#)) (Figure 95).

## Campus Flora Fauna

Rare Species on Campus: Çanakkale Onsekiz Mart University Terzioğlu Campus has a natural flora and fauna, which has been revealed by scientific studies such as theses, papers, projects and articles in previous years. There are 566 plant taxa belonging to 113 families and 338 genera in Terzioğlu Campus. 382 of the 566 taxa are naturally distributed in the area. There are a total of 4 endemic plant species unique to our country in the campus area. At the same time, there are many landscape plants on the campus within the scope of environmental regulation studies. Of the 116 landscape plant species in Terzioğlu Campus; 55 are leafy trees and shrubs, 15 are coniferous tree species, 40 are shrubs, and 6 are vines. Terzioğlu campus has a rich fauna including different amphibian and reptile species, spider, butterfly and bird species due to its different habitat and terrain structure. There are 6 species of amphibians and 16 species of reptiles within the borders of the campus. In addition, 136 spider species from 109 genera belonging to 32 families are found on the campus. In addition, there are 57 butterfly species belonging to 13 families. There are also 102 bird species belonging to 13 ordo and 36 families. On the Dardanos campus, there are 110 bird species belonging to 18 ordo and 39 families. Within the scope of the 2209-A University Students Research Projects Support Program, the project titled "Ornithofauna of Çanakkale Onsekiz Mart University Terzioğlu Campus", which was carried out by Ege Can DEBRELİ, a student of the Department of Biology, and advised by Prof. Dr. Murat TOSUNOĞLU, was found worthy of support. (ARAR: <https://avesis.comu.edu.tr/researchteamsite/comuarar>) (Figure 96 and descriptions).

## Flora

According to the on-site determinations in Terzioğlu Campus, the following plants belonging to 34 families were identified (Creating an Arboretum in ÇOMÜ Terzioğlu Campus, Prof. Dr. Füsün ERDURAN NEMUTLU (Executive), Faculty of Architecture and Design / Department of Landscape Architecture, Assoc. Prof. Dr. Ersin KARABACAK, Faculty of Arts and Sciences / Department of Biology, Independent Research Project (NAP), Project No: 2480). In this study, plants were classified according to their families; their genus and species names, otorsr' and, when necessary, their varieties were determined. Labels were prepared and attached to the trees for the purpose of introducing the plants in the field. The list of plants determined in Terzioğlu is given in detail in the [flora link](#) (Figure 97).

Figure 97. Various Flora Samples

## Sea Turtles Research

The [Sea Turtle Research and Application Center](#) at our university was established to carry out protection and scientific research to ensure the continuation of the generations of endangered sea turtles and to carry out activities that will increase people's awareness of nature and endangered creatures. The center's activities are carried out in cooperation with other units of our university, the Republic of Turkey, Ministry of Forestry and Water Affairs, General Directorate of Nature Conservation and National Parks, Coast Guard Command, and various national and international civil society organizations.

## Lobster Stock Support Program

[Lobster Stock Support Program](#)-Çanakkale Onsekiz Mart University (ÇOMÜ) Faculty of Marine Sciences and Technologies (DBTF) is implementing the Lobster Stock Support Program. A social responsibility project is being carried out regarding the lobster species, which is overfished due to its economic value. Within the scope of the stock support program, in order to increase the amount of overfished and endangered marine species, the species is first produced on land by human intervention and then their larvae are turned into young individuals and released into the sea (Figure 98).

*Figure 98. Lobster Stock Support Program by Çanakkale Onsekiz Mart University (ÇOMÜ) Faculty of Marine Sciences and Technologies (DBTF)*

## 07.2. Climate Action Plan

Çanakkale Onsekiz Mart University Sustainability Office Coordination Office has prepared the Çanakkale Onsekiz Mart University Climate Action Plan draft for the 2024-2030 period, which aims to coordinate and direct the implementation of sustainability approaches regarding climate change action throughout the university, and a [Climate Action Plan Workshop](#) was held with all stakeholders in line with this draft. In line with this plan, it is aimed to accelerate the monitoring and transformation processes starting from October 2024. [The Climate Action Plan](#), prepared with the contributions of the Sustainability Commission members, outlines the planned activities under the themes of “Energy Efficiency and Renewable Energy, Transportation, Waste Management, Water Protection, Ecosystems and Biodiversity, Buildings and Infrastructure, Research and Education”.

## 07.3. Waste Management

### 07.3.1. Zero Waste Application

In order to prevent waste in our country, use natural resources efficiently, reduce waste generation and develop waste separation at source, the [Zero Waste application](#) was launched by the Ministry of Environment and Urbanization in 2017. The principles regarding the establishment of the Zero Waste System were specified in detail in the Zero Waste Regulation published in the Official Gazette on July 12, 2019. Çanakkale Onsekiz Mart University Terzioğlu Campus received the attached Zero Waste Certificate (Basic Level) in 2021. Our university has a basic level zero waste certificate in Terzioğlu, Biga Ağaköy, University Hospital, Oral and Dental Health Hospital.

Studies and awareness training continue in our campuses with zero waste certificates to operate the system more effectively. Our university has completed the planning stages and started its implementation studies in order to better operate and expand the zero waste system. In this context, Çanakkale Onsekiz Mart University has prepared a “Zero Waste Project File” in order to receive support from the Ministry of Environment, Urbanization and Climate Change, and received support.

Our university's [zero waste website](#) summarizes the work done on waste management. Our university's [Zero Waste Directive](#) regulates all the rules that must be followed in the implementation of the Zero Waste Management System in waste management. There is a need for more effective work with stakeholders on all campuses for waste management and for the development of the infrastructure. In addition, work needs to be done on the establishment and dissemination of deposit systems in accordance with the deposit regulation (Figure 99, Figure 100).

Figure 99. Çanakkale Onsekiz Mart University Terzioğlu Campus 2021 Zero Waste Certificate (Basic Level)

Ayvacık Vocational School

Figure 100. Images of the Zero Waste Program

### 07.3.2. Waste Collection Points

Collection points for recycling waste (paper, cardboard, metal, composite) at Çanakkale Onsekiz Mart University Terzioğlu Campus are marked on the map below (Figure 101, Table 17)

Figure 101. Recycling waste points at Çanakkale Onsekiz Mart University Terzioğlu Campus

## 07.4. Energy

At Çanakkale Onsekiz Mart University, solar energy has been applied only on the roof of the Terzioğlu Campus Children's Home (Figure 102). . Our university continues to work for the dissemination of solar energy. In this context, the Ministry of Environment, Urbanization and Climate plans to [install unlicensed solar power plants for the self-consumption of public institutions](#) such as universities, ministries and hospitals within the scope of the Public and Municipal Renewable Energy Project (KAYEP) supported by the World Bank. In this context, the application phase of the projects prepared for 12 different locations on the campus of our university has been completed and the approval stage has been reached. With the project, the roofs and facades of all buildings of our University and the open parking areas will be transformed into solar power plants. However, it is necessary to disseminate these practices.

Figure 102. Solar energy at Çanakkale Onsekiz Mart University is only available on the roof of Terzioğlu Campus Kindergarten.

#### **07.4.1. Renewable Youth Energy (RE-You) Project**

With the Renewable Youth Energy (RE-YOU) project carried out in the Southern Marmara Region, which has the highest renewable energy production potential in Turkey and is quite rich in renewable energy sources such as wind, biogas and solar, 280 hours of both theoretical and practical technical and social skills training were received in the fields of wind, solar and biogas power systems. [The Renewable Youth Energy \(RE-YOU\) Operation](#) is an important project supported within the scope of IPA II within the framework of the Education, Employment and Social Policies Sectoral Operational Program (İKSOP). The main beneficiary of the project is the Southern Marmara Development Agency, and Balıkesir University and Çanakkale Onsekiz Mart University are partners in this project. The budget of this operation, which is determined to have a total duration of 36 months, is approximately 8 million Euros and 85% of this budget is financed by the European Union. The project aims to increase the education and employment opportunities of young people in the field of renewable energy and thus contribute to sustainable development. In this context, laboratories have been established at our university to conduct training and professional qualification exams in the fields of PV, wind and biogas.

On 17.11.2023, the ["Renewable Youth Energy Regional Conference"](#) was held at Hilton Hotel Çanakkale within the scope of the RE-You Project (Renewable Youth Energy Operation). The conference, held within the scope of Balıkesir University, Çanakkale Onsekiz Mart University and the Renewable Energy Academy (RENAC), where representatives of the private sector and civil society in Turkey's renewable energy sector came together, was held where experts from Europe made presentations on Employment Opportunities, Trainings on Renewable Energy Technologies, and the Personnel Certification System, and sector trends and future cooperation opportunities were evaluated.

#### **07.4.2. Global Wind Organization Approved Basic Safety Training Certificate**

Çanakkale Onsekiz Mart University Continuing Education Center (ÇOMÜSEM) has received the [approval of the authorized institution to provide GWO approved Basic Safety Training \(BST\)](#). By fulfilling all the requirements, ÇOMÜSEM has earned the title of Training Provider of GWO (Global Wind Organization), a global union that aims to create a healthy and safe working environment for all employees in the production, assembly, service and operation processes of the Wind Power Plant (RES) sector. The training aims to provide participants with important skills such as first aid, fire awareness and working at heights. The aim is to gain the necessary competence on the hazards encountered while working in the wind industry and how to control and reduce these hazards, and to provide a fully safe working at height environment with zero work accidents. The training includes ensuring that personnel working in wind power plants and turbines receive Basic Work Safety Trainings required for wind turbines not only at national but also international levels at the same standard. This certification is provided with the capacity building support provided within the Renewable Youth Energy (Re-You) Operation, which was prepared and applied for by the South Marmara Development Agency and was entitled to be supported by the Human Resources Development Sectoral Operational Programme, which is being implemented by the Ministry of Labour and Social Security within the scope of the European Union Pre-Accession Financial Assistance Instrument (IPA).

### 07.4.3. Individual Carbon Footprint Calculation

A Carbon Footprint button was prepared to raise awareness at Çanakkale Onsekiz Mart University, which has the goals of a Nature-Friendly University and Nature-Friendly Campus. The button, which can be accessed by university students and employees via the website and where they can determine their carbon footprint, is available in Turkish and English. The [website](#), which aims to motivate people to make a change in their lifestyle by measuring their daily carbon footprint and is designed as a step in our country's fight against the climate crisis with the slogan "The World is Our Common Home", will be made ready for use as an application in time. Studies have been initiated for the institutional calculation of the carbon footprint. Scope 1 and Scope 2 Carbon Footprints were calculated within the scope of Greenmetric. In addition to the Scope 1 and Scope 2 carbon footprints, the data collection system needs to be structured more effectively in order to calculate the carbon footprint, especially on the basis of Scope 3.

### 07.5. Water usage

The water supply in ÇOMÜ campuses is provided through city water and natural sources. Mains water is mostly used in wet areas in buildings and campuses. Well water is used to irrigate green areas. Information on the clean water consumption amounts of our university is given in the Table 18. The Total Consumption Amount in 2023 was 163,745 m<sup>3</sup>. It is planned to take measures to reduce water consumption within the scope of the Climate Action Plan. In our university, rainwater harvesting, use of water-saving devices, switching to arid landscaping practices, reducing water consumption from irrigation, and better monitoring of water data should be taken on all campuses.

Table 18. Water consumption amounts on ÇOMÜ campuses

Unit	Total Water Usage in 2023 (m <sup>3</sup> )
Rectorate/Terzioğlu Campus	88599
Education Faculty	10133
Theology Faculty	3735
Technical Sciences College	2343

## 07.6. Transportation

Çanakkale Onsekiz Mart University has 2 large campuses in the central district of Çanakkale, Terzioğlu and Anafartalar Campuses. Students and staff can use the option of bicycle transportation with the Çanakkale Municipality's ÇABİS [Smart Bicycle Rental System](#) (Figure 103).

The Anafartalar campus is located very close to the road and is quite suitable for pedestrian and bicycle transportation. However, Terzioğlu Campus has a sloped and rugged structure. Therefore, normal bicycle use is not possible on the campus. However, it is possible for students to come to the campus entrance with their own bicycles or with the ÇABİS system and to reach Terzioğlu Campus with the ring. In addition, ring services need to be increased. In recent years, an increase has been observed in the number of electric bicycles and vehicles. However, there are no electric charging stations on the campus. This deficiency will be eliminated in the coming years. There is a need to work together with stakeholders on all campuses for sustainable transportation.

## Friend in Need Projects 1,3 and 4

**Friend in Need Project 1** An aid campaign was organized for the disaster areas in the earthquake centered in Kahramanmaraş on February 6th and affected 11 provinces. Within the scope of the project, 4 trucks and 40 pallets were sent to the disaster areas by sea.

**Friend in Need Project 3** Blanket support to the villages affected by the Great Çanakkale fires that occurred in August.

**Friend in Need Project 4** Supported the people who were affected by the Kepez Flood Disaster.

From the first day of the earthquake, the ÇOMÜ Boutique area operating within our University under the coordination of the Governorship was selected as the support collection center. In-kind aids of the University academic, administrative staff, students and the people of Çanakkale were collected within ÇOMÜ Boutique to be delivered to the earthquake region. Supports such as; Education, Urban Transportation, Household Goods, Food, Clothing and Activities for Children were provided.

## Sustainable Food Production and Zero Waste Workshop at ÇOMÜ

The "Sustainability and Zero Waste Workshop in Food Production" was held at the Turgut Özal Conference Hall of the Faculty of Engineering at Çanakkale Onsekiz Mart University (ÇOMÜ). The event was attended by Rector Prof. Dr. R. Cüneyt Erenoğlu, Dean of the Faculty of Agriculture Prof. Dr. Murat Şeker, Director of the Graduate Education Institute Prof. Dr. Ahmet Evren Erginal, Director of ÇEVSAK Prof. Dr. Nilgün Ayman Öz, Head of the Department of Food Engineering Prof. Dr. Mehmet Seçkin Aday, Faculty of Agriculture Lecturer Prof. Dr. Yasemin Kavdır, Lecturer Dr. Öğr. Üyesi Dilvin İpek from Ezine Vocational School, Director of Ezine Food Specialization Organized Industrial Zone Alper Altınok, and CEO of Tahsildaroğlu Dairy and Dairy Products A.Ş. Sevdil Yıldırım, as well as academics and students.

In his opening speech, Rector Erenoğlu emphasized the importance of the sustainability of food production in the context of climate change, and drew attention to the ongoing studies within the scope of the Zero Waste and Nature-Friendly Campus projects. During the workshop, academics from different disciplines and industry representatives shared their knowledge and experiences on environmentally friendly solutions.

	<p align="center"><b>"From Soil to Table STEAM" Project</b></p>
<p>The project titled "From Soil to Table STEAM" with the project number 122B585 was carried out within the scope of the TÜBİTAK Nature Education and Science Schools Support Program-4004. The aim of the project, which was carried out under the leadership of Assoc. Prof. Dr. Ganime Aydın from the Faculty of Education at ÇOMÜ, was to create awareness of green and sustainable agricultural literacy through STEAM (Science, Technology, Engineering, Art, Mathematics) activities for 26 immigrant and earthquake victim middle school students living in Çanakkale. Another aim of the project was to provide hope for immigrant children in our country due to reasons such as migration, war and terror.</p> <p>In addition to various units of ÇOMÜ, the closing activities and meeting of the project, which was carried out in Kızılkeçili, Kumkale and Ayvacık Süleyman Villages, were held at Ezine Vocational School with the participation of Director Dr. Lecturer Mustafa Ekici. In his speech, Dr. Lecturer Ekici thanked TÜBİTAK, the Rectorate of ÇOMÜ, the project partner Çanakkale Provincial Directorate of National Education, and the supporting institution Çanakkale Provincial Directorate of Culture and Tourism for their support for the project, which was also supported by Mersin, Marmara, Trakya and Sakarya Universities.</p>

## Diabetes Awareness Event for a Healthy Future

On November 14, 2023, the "Be Aware of Diabetes for a Healthy Future" event was held at Çanakkale Onsekiz Mart University Faculty of Health Sciences. The event was held within the scope of the Diabetes Nursing course with the contributions of Assoc. Prof. Naile Alankaya, Res. Asst. Dr. Hilalnur Küçükakgün and Nursing Department students. The aim of this activity is to emphasize the importance of the risk of Type 2 Diabetes Mellitus to students, to gain healthy lifestyle behaviors to prevent risks, and to make a difference in healthy nutrition and exercise.

<p>In order to reduce the negative effects of the earthquakes that occurred in Kahramanmaraş on February 6, 2023 on people and human psychology, a training titled “Psychological First Aid in Difficult Life Events” was given to the academic and administrative staff of Çanakkale Onsekiz Mart University by Psychological Counselor Lecturer Cumhuri Çırnaz. Considering that not only those who directly experienced the earthquake, but also the families of earthquake victims, those who helped them and those who somehow witnessed the earthquake experience psychological problems, many ÇOMÜ members attended the training. The training, organized online for the Biga Faculty of Economics and Administrative Sciences and vocational schools in the districts, was held at the İÇDAŞ Kara Yusuf Congress Center for personnel in the Çanakkale central campus.</p>

## STREAM Approach Oriented Instructional Design Development Project

The "STREAM Approach Oriented Instructional Design Development Project", which started on December 1, 2023 and is supported by the TÜBİTAK 1002 Short-term Support Program, is being carried out in cooperation with Çanakkale Onsekiz Mart University and Balıkesir University. The project is carried out to ensure that science teachers are informed about the STREAM education approach and to develop instructional designs for sustainable development goals that they can use in the classroom environment. During the project process, it was planned to work with 15 science teachers in Çanakkale and Balıkesir, but by providing training to teacher candidates, a total of 35 people were reached. The trainings were carried out in Çanakkale and Balıkesir throughout 2024. The teaching designs developed within the scope of the project were designed and implemented in line with the achievements in the 5th, 6th, 7th and 8th grade secondary school science curriculum. The project is directly related to the sustainable development goals (SDGs) and aims to increase sustainability in education by adopting an innovative approach in science teaching.

## Zero Tolerance Project Protocol on News on Violence Against Women

The Protocol for the Zero Tolerance in News on Violence Against Women Project, led by Assoc. Prof. Dr. Hicran Özlem Ilgın, was signed by Governor İlhami Aktaş, Çanakkale Chief Public Prosecutor Altuğ Kürşat Şahin and ÇOMU Rector Prof. Dr. Dinçay Köksal. Governor Aktaş stated that all institutions work with "Zero Tolerance to Violence against Women" and that they support and follow the positive discrimination of women personnel in the governorship and other institutions and women in our province, and thanked those who contributed to the preparation of the "Zero Tolerance in Violence against Women News" project and wished it to be beneficial. Within the scope of the "Zero Tolerance in News on Violence against Women Project"; it was decided to provide training to media members on how local media employees in Çanakkale should reflect the news of femicides, what are the sexist, stigmatizing, murder-justifying news discourses that they should avoid, how important these news discourses are in directing the society and how to use visuals.

## "Thirsty Lakes from Turkestan to Anatolia" Exhibition

On October 4, 2023, at Çanakkale Turhan Meldon Culture and Art Center, the solo exhibition of Minara Guliyeva Jamshidi from the Department of Textile and Fashion Design, Faculty of Fine Arts met with art lovers with the title "Thirsty Lakes from Turkestan to Anatolia". In the exhibition, the dramatic story of the lakes that have dried up and are about to dry up in the geography extending from Turkestan to Anatolia was told through clothing designs. This exhibition aims to convey the lakes, which hold a vital place in our ecological system today, to future generations through art and to draw attention to the need for their protection, just as people in the past showed their importance by embroidering their most valuable elements on their clothes. In the designs, the theme of drought is expressed with the tones of earth colors, while the geographical location of the lakes and environmental interactions are reflected in the clothing designs, aiming to raise social awareness.

## Olive and Olive Oil Processing Unit at ÇOMU

The opening ceremony of "Ezine Vocational School Olive and Olive Oil Processing Unit" was held at Çanakkale Onsekiz Mart University (ÇOMÜ) Ezine Vocational School (Vocational School). ÇOMÜ Rector Prof. Dr. R. Cüneyt Erenoğlu stated that Ezine is one of the most important olive production centers of Çanakkale; "Olives grown in our region are world famous for their unique aroma and taste. In this direction, the opening of this unit, which will directly contribute to Ezine's geographically marked olive and olive oil production, is an important milestone for our region. This unit will teach our students all stages of olive and olive oil production practically. In this way, when our students graduate, they will contribute to the qualified workforce needed in the sector. This unit will offer olive producers the opportunity to process their olives in a quality way."

## RE-You" Project Career Fair

The "RE-You" Project Career Fair, organized within the scope of the EU-funded Renewable Youth Energy (RE-You) Project implemented by the South Marmara Development Agency in cooperation with Çanakkale Onsekiz Mart University (ÇOMÜ) and Balıkesir University, was hosted by ÇOMÜ today at Dardanos Campus. Within the scope of the Renewable Energy Career Fair - Career Days, which aims to address skills gaps by focusing on digital and green technology in the European Year of Skills, members of the Delegation of the European Union to Turkey came together and exchanged ideas on future opportunities on behalf of Çanakkale Onsekiz Mart University. Leading stakeholders of the renewable energy sector, representatives of public institutions and organizations, human resources professionals, academics and young people attended the Career Fair, where approximately 40 private renewable energy companies, public institutions, NGOs and research institutions participated and opened stands. With this project carried out in the South Marmara Region, which has the highest renewable energy generation potential in Turkey and is rich in renewable energy resources such as wind, biogas and solar, young graduates who received 280 hours of both theoretical and practical technical and soft skills training in the fields of wind, solar and biogas power systems and who aim to pursue a career in the renewable energy sector came together with leading companies in the sector.

## Interactive Catalog Design of the Faculty of Fine Arts (GSF)

The Interactive Catalog Design of Çanakkale Onsekiz Mart University (ÇOMÜ) Faculty of Fine Arts (GSF) has achieved international success in two different competitive Biennials held in Peru and Beijing. ÇOMÜ GSF Graphic Design Department faculty members Assoc. Prof. Didem Çatal and Assist. Assist. Prof. Didem Çatal and Lecturer Semra Çam, the Interactive Faculty Catalog was one of the 452 projects selected among 66,712 applications in 13 categories at the Peru International Design Biennial, where design works that are examples of social and cultural contribution were determined. The Interactive Faculty Catalog of the Faculty of Fine Arts was also one of the 47 projects selected in the foreign work category at the Beijing International 4th Contemporary International Ink Design Biennial, hosted by the Ministry of Culture and Tourism of the People's Republic of China and the People's Government of Beijing Municipality, where more than 2,460 applications were evaluated.

The interactive catalog can be used functionally by both students and academics and contains information about departments, faculty members and lesson plans. The catalog also has the feature of being accessible to social media accounts.

## 21st Century Skills and Values" Training

Gelibolu Piri Reis Vocational School Lecturer. Prof. Dr. Dilek DÖNMEZ POLAT, one of the most important topics of the "Human Resources Management" course conducted by Prof. Dr. Dilek DÖNMEZ POLAT, was transferred to Gelibolu Science High School students in the form of a seminar on "21st Century Skills and Values". On Monday, December 04, 2023, Gelibolu Piri Reis Vocational School Human Resources Management 1. Prof. Dr. Dilek DÖNMEZ POLAT, who taught her course at Gelibolu Science High School together with the first year students, said in her presentation: "Talking about the skills of the 21st century means touching both the careers and perspectives of young people by showing the business world, entrepreneurship, different thinking methods. We can define a 21st century person as a person who is creative, inquisitive, has high empathy and can understand the subtleties of human communication. In the 21st century, where competition is increasing, everything is rapidly changing and becoming ordinary, the only thing that remains different and "unique" is the human being.

## SDG9

## Çanakkale Green Industry Ecosystem Project Workshop

Prior to the Call for Green Transformation in Industry, the "Çanakkale Green Industrial Ecosystem Project Workshop on Green Transformation and its Impact on Sustainability" was held online for the members of the consortium consisting of Kale Group, İÇDAŞ, Dardanel Önentaş, Çanakkale Onsekiz Mart University and Ezine Food Specialized OIZ. European Union Programs Communication Strategist Eda Zaloğlu, Unicef Turkey Representative Bican Altunkesler and Çanakkale Onsekiz Mart University Faculty Member Assoc. Prof. Dr. Erdal Eroğlu participated in the workshop with their presentations; Ezine Vocational School Food Processing Department students also had the opportunity to listen to this workshop. In the workshop; European Union Programs Communication Strategist Eda Zaloğlu - Green Transformation and Sustainability - made a presentation on Green Transformation EU project opportunities with the Green Deal Example, while Unicef Turkey Representative Bican Altunkesler made a presentation on Green Transformation and Sustainability in Vocational Education. Assoc. Prof. Dr. Erdal Eroğlu presented "Increasing Ecology Awareness in Sustainable Green Transformation: Cooperation between Universities and Local Actors", as well as the TUBITAK 2209 A project he realized with his student on Ecocampus awareness. He stated that they aim to realize Green Transformation and Digital Transformation as twin transformations within our university.

<b>9</b> INDUSTRY, INNOVATION AND INFRASTRUCTURE 	<h3 style="text-align: center;">Drone Production</h3>
<p>Drone produced by Çanakkale Onsekiz Mart University (ÇOMÜ) Algan Technology Team made its first flight on June 2 at Dardanos Campus. The event started with the flying of the drone, which was designed by the students and whose artificial intelligence and autonomous flight software were produced locally. Algan Technology Team consists of more than 20 students who have all the necessary knowledge about drone construction and are prone to teamwork. The team's 2023 project, A1915, aims to detect forest fires early. The drone vehicle used for this purpose detects smoke and fire with image processing technology and sends notifications to the authorities as soon as these elements are detected. The drone vehicle produced by the Algan Technology Team stands out both among student teams and among other drones in the sector with a flight time of 20 minutes. Capt. Tekdemir emphasized the importance of the sponsorship support they received and thanked their sponsors Kale Group, Havadan Mapping, SolidWorks, Technology Developers and Entrepreneurs Association (TEGGDER), MFM Technologies and Laçinler Otomotiv for their support throughout the process.</p>

<b>10</b> REDUCED INEQUALITIES 	<h3>Nursing Home Visit</h3> <p>Social Responsibility Unit organized another meaningful event. The volunteer team visited Çanakkale Nursing Home Elderly Care and Rehabilitation Center in Kepez district of Çanakkale and organized a virtual Anıtkabir tour within the scope of VRÇOMÜ project. Within the scope of the event, volunteer students had pleasant moments by chatting with the people living in the nursing home. Visiting the nursing home, the students first chatted with the people living in the institution and listened to their memories. During the visit, 110 gift packages were distributed. The packages included ties and vests for men and plush vests for women.</p>

## FIRST DIGITAL 100 Project

The FIRST DIGITAL 100 project, prepared in partnership with Çanakkale Onsekiz Mart University Faculty of Tourism (ÇOMÜ) and Çanakkale Municipality Strategy Development Unit Project Teams, was awarded a grant. Within the scope of the project prepared for the Alternative Tourism Destinations Financial Support Program opened by the South Marmara Development Agency; in line with changing consumer trends and technological developments, it is aimed to make the cultural heritage values of Çanakkale city center and the new urban values destination visible and accessible, to contribute to the sustainability of the city's economic, social and cultural growth and to add value to the ecology. With the project; while determining and digitizing the urban destination inventory that will be integrated into the KAL-E application to be written in the focus of Web 3.0 technologies, a new Barrier-Free, Digital and Climate-Friendly Park will be created, where the tourism and cultural values of the city are presented in multimedia with augmented and virtual reality tools, hosting new generation digital technologies.

## Art Project with Waste Ceramics for the New Building of Çanakkale Municipality

The first workshop organized within the scope of the "Ceramic Mosaic Surface Coating Project" by Çanakkale Onsekiz Mart University Faculty of Fine Arts, Department of Ceramics and Glass was completed on November 20, 2023. The project was realized in cooperation with Çanakkale Municipality, Çanakkale Onsekiz Mart University and Kaleseramik Çanakkale Kalebodur Seramik San. A.Ş. in cooperation with the Municipality of Çanakkale, Çanakkale Onsekiz Mart University and Kaleseramik Çanakkale Kalebodur Seramik San. Prior to the workshop, an information trip to Çanakkale Ceramic factories was organized for the project participants. In this workshop, which was attended by faculty members and students from the Ceramics and Glass Departments of ÇOMÜ GSF, MSGSÜ GSF and Muğla Sıtkı Koçman Universities, an olive-themed mosaic surface coating work was produced using waste ceramic materials. This project was realized in order to draw attention to upcycling practices and to create sustainability and environmental awareness. Within the framework of the Çanakkale Municipality Green Local Government Building Open Space Identification Study, the project aims to bring art and environmental awareness together to create useful work for the society.

<p><b>12</b> RESPONSIBLE CONSUMPTION AND PRODUCTION</p> 	<p><b>Mythological Heroes Meet JEPUBLIC</b></p>
<p>On October 06, 2023, Çanakkale Onsekiz Mart University Faculty of Fine Arts, Department of Traditional Turkish Arts students, under the coordination of Assoc. Prof. Berna İleri, brought together the principles of sustainability and recycling with art. Waste denim fabrics provided by JEPUBLIC LJ turned into 14 paintings in the creative hands of the students. This art project enabled mythological heroes to be reimagined with a modern twist and showed how recycling can be used effectively in art. The work was prepared to be exhibited in Ankara, setting an important example in line with sustainability goals. This successful project aims to both raise environmental awareness and redefine art from a different perspective.</p>	
 <p><small>Jepublic ile Çanakkale Onsekiz Mart Üniversitesi'ne birliktedir. "Jepublic: Özyen Mitoşu, Kumaşlar" adlı sergisi Konya AVİM'de 6-15 2023 Ekim tarihleri arasında sunulacaktır.</small></p>

## Sustainable Packaging Design Project by Students of ÇOMU Graphic Design Department

On November 20, 2023, Çanakkale Onsekiz Mart University Faculty of Fine Arts (ÇOMÜ GSF) Graphic Design Department, under the guidance of Prof. Didem Çatal, carried out a creative project to recycle cargo boxes to encourage sustainable packaging design. Students Uğur Öztürk, Sümeyye Aşçı, Beste Yıldırım, Çiğdem Koç, Hilal Emine Uzun and Eren Uysal designed GSF directional signage as part of this project. This project aims to support the "Responsible Consumption and Production" goal (SDG 12) of the United Nations' Sustainable Development Goals. The project promotes the sustainable management and efficient use of natural resources, while offering significant environmental benefits such as reducing waste and contributing to more efficient use of resources. With this creative work, the students aimed to raise environmental awareness and raise awareness about sustainable consumption and production. The project was also submitted for participation in the 4th International Poster Design Competition organized by Bolu Abant İzzet Baysal University. Such studies help students develop environmentally friendly habits and support the formation of a sustainable and environmentally friendly society.

14 LIFE BELOW WATER

## Ghost Net Hunters Project

Within the scope of the "Ghost Net Hunters" project carried out jointly with Çanakkale Onsekiz Mart University (ÇOMÜ) Faculty of Marine Sciences and Balıkesir Metropolitan Municipality, efforts to remove ghost nets in the seas continue. In the 3rd stage field studies in the Edremit Gulf, various fishing gears (purse seine net, extension net, etc.) that have been lost in the seas or remain in the marine environment for various reasons and still continue to hunt and harm marine life are removed from the marine environment and the seas are cleaned. Within the scope of the project, approximately 50 thousand square meters of ghost nets were collected from the seas in the Aegean and Marmara Seas.

<div>14</div> <div>LIFE BELOW WATER</div> <div></div>	<div>'Do Good, Throw into the Sea' Project</div>
<div>Free diving world record holder Şahika Ercümen released lobster fry into the depths of the Dardanelles, holding her breath for the lobsters raised by ÇOMÜ. In the second year of the 'Do Good, Throw into the Sea' project implemented by Dardanel and Çanakkale Onsekiz Mart University (ÇOMÜ) to increase the local lobster population in order to protect sustainable marine life and marine diversity, 300 baby lobsters were introduced to the sea. Within the scope of the project, studies were carried out to increase the population of the local lobster species 'Homarus gammarus', which is known as the 'European lobster' and is also found in Turkish waters. A successful model in the UK, where this lobster species is produced through aquaculture and released into its natural environment to sustainably support the lobster population in nature, was taken as an example. At the Marine Life Research and Application Center of the Faculty of Marine Sciences and Technology at the Dardanos campus of ÇOMÜ, the team led by Prof. Dr. Umur Önal raised hundreds of baby lobsters from the larval stage in special pools. The program held at Dardanel Mussel Farm in Gallipoli was attended by ÇOMU Rector Prof. Dr. R. Cüneyt Erenoğlu, Dardanel Chairman of the Board of Directors Niyazi Önen, national athlete Şahika Ercümen, academics from ÇOMU Faculty of Marine Sciences and Technology and members of the press.</div>

## Coastal Cleanup Event

Within the scope of the 100th Anniversary Events, coastal cleaning was carried out in cooperation with the Faculty of Dentistry and ÇOMÜ Social Responsibility Project Coordinatorship, covering an area of 400 meters in Kepez Harbor. Within the scope of the event, Social Responsibility Project Coordinator Assoc. Prof. Dr. Hicran Özlem Ilgın, Deputy Coordinator Assoc. Prof. Dr. Nazan Çalbayram, Dean of the Faculty of Dentistry İlgi Tosun, Assoc. Prof. Dr. Rüya Sessiz and 5th year dentistry students participated in the Community Oral and Dental Health course. Dean of the Faculty of Dentistry Prof. Dr. İlgi Tosun said to the students participating in the event: "The purpose of this event is not to collect garbage, but to raise awareness of not throwing garbage into the environment." Prof. Dr. Sessiz said, "My students, whom I am proud to be their teacher, did a very good job today with the meticulousness and detailing required to be a dentist. Being a physician requires not only distributing health to the society but also being exemplary individuals who respect nature. With our 5th grade students, we served humanity by caring for patients in the morning and nature with the activity we did in the afternoon." In order to become physicians who contribute to society in every aspect, the students of the Faculty of Dentistry conducted an awareness-raising activity on the coastline of Kepez district, which hosts their faculty, and the garbage collected as a result of the cleaning was received by Kepez Municipality teams for recycling. The event ended with a souvenir photo

## Civil Society Academy

It is a training program launched in 2023 with the cooperation of the Ministry of Internal Affairs and ÇOMU in order to increase the human resource capacities of civil society organizations, to improve the level of knowledge of civil society organization representatives on current issues related to civil society, especially civil society legislation, volunteering and social entrepreneurship, and to increase the number of professional employees. The training is aimed at representatives of civil society organizations, university students and all citizens who want to work or volunteer in the field of civil society and is carried out online with the infrastructure of ÇOMÜ Continuing Education Center.

## Disciplinary Law Service Training Seminar

Stating that universities are important institutions that contribute to the knowledge and cultural development of society, Rector Erenoğlu emphasized that the effective implementation of disciplinary rules is of great importance for the healthy conduct of education and training activities in these institutions and said the following: "Disciplinary law is a branch of law that regulates the rules that students, academic and administrative staff must comply with in universities and the sanctions to be applied in case of non-compliance with these rules. The purpose of disciplinary law is to ensure order and discipline at the university and to protect the rights of students and staff. In this context, the basic concepts of disciplinary law, disciplinary investigation process and sanctions were discussed in the seminar.

A Cooperation Protocol was signed between ÇOMU and TÜGVA. With the signed protocol, it is aimed to support the academic development of ÇOMU students and to increase the projects between NGOs and the University.

**February 11, 2023**

Balıkesir Metropolitan Municipality and ÇOMU signed a Cooperation Protocol. It is aimed to carry out maintenance and technical revision of the R/V COMU-1 research vessel belonging to Çanakkale Onsekiz Mart University and to carry out studies on artificial reef studies, cleaning our seas from ghost nets, scientific and social projects, social and cultural activities to be carried out together with Balıkesir Metropolitan Municipality.

**March 28, 2023**

A Cooperation Protocol was signed between ÇOMU, İŞKUR and Provincial Directorate of National Education. Within the scope of the protocol, an agreement was reached on the continuity of studies for academic and scientific research. The dissemination and development of the project results will be carried out through Çanakkale Onsekiz Mart University Student Life, Career and Alumni Relations Coordinatorship. With the protocol signed as a result of the University-Industry Cooperation studies, the foundations were laid for joint projects, R&D studies, internship movements and joint congresses and symposiums between ÇOMU, Uludağ Perakende Elektrik Satış A.Ş. and Uludağ Elektrik Dağıtım A.Ş.

**May 9, 2023**

"Natural Disasters Focused Field Study Cooperation Protocol" was signed between ÇOMU and TÜBİTAK. Within the scope of the study titled "Field study on the observation of soil and building damages after the earthquakes that occurred on February 6, 2023 in the Eastern Anatolia Fault Zone" carried out by TÜBİTAK-MAM, the expenses will be covered within the framework of TÜBİTAK legislation, the principles of cooperation between the parties, the principles of implementation and other related technical and administrative regulations.

**May 9, 2023**

Çanakkale Mehmet Akif Ersoy State Hospital and ÇOMÜ Nursery and Kindergarten signed [a cooperation protocol](#). The protocol aims to provide care for the children in need of care of health personnel who will take part in emergencies in Çanakkale Mehmet Akif Ersoy State Hospital or in natural and man-made disasters that will occur throughout Çanakkale province.

**May 23, 2023**

[A cooperation protocol was signed between ÇOMU and Çanakkale Municipality](#). The protocol aims at scientific, artistic and cultural cooperation between Çanakkale Onsekiz Mart University and Çanakkale Municipality. The protocol text also includes the scientific and artistic activities of ÇOMU State Conservatory.

**July 10, 2023**

[A Cooperation Protocol was signed between KADEM Çanakkale Provincial Representative Office and ÇOMÜ](#). With the signed protocol, workshops and trainings will be planned and social responsibility projects will be developed in order to raise awareness of women in political, social, legal, economic, cultural life and family life, to support the intellectual and mental development of the family and the child within the scope of the program that will support the development of women and young people.

**August 2, 2023**

[Onsekiz Mart Cooperation Protocol was signed between the Ministry of Interior General Directorate of Civil Society Relations and Çanakkale Onsekiz Mart University for the establishment of the Civil Society Academy](#). The Protocol aims to combine academic and public institutional experiences to equip civil society organizations and their representatives with the necessary equipment through training programs to be organized for all those who want to operate in the field of civil society.

**August 17, 2023**

A cooperation protocol was signed between the Rectorate of ÇOMU and Çanakkale Provincial Directorate of National Education and Çanakkale Provincial Directorate of Labor and Employment Agency. The protocol aims to establish scientific and academic cooperation between the Rectorate of Çanakkale Onsekiz Mart University and Çanakkale Provincial Directorate of Labor and Employment Agency and Çanakkale Provincial Directorate of National Education.

**August 29, 2023**

A cooperation protocol was signed between Çanakkale Onsekiz Mart University and İŞ-KUR. Rector Prof. Dr. R. R. Cüneyt Erenoğlu, Çanakkale Provincial Director of Labor and Employment Agency Mehmet Uğur Yavuz and the accompanying delegation attended the signing ceremony held at the Rector's Office of Çanakkale Onsekiz Mart University.

**August 29, 2023**
